200 EAST CARSON

AN EQUAL OPPORTUNITY EMPLOYER

PUB: LV VOICE July 6, 13, 1978

The Now Washbasket By Steffne Miller

In spite of the advantages of today's modern fabrics, homemakers know that these materials are hard to keep clean. They realize that detergent alone may not do the job, so they are seeking the help of laundry additives. Here is a list of the most commonly used products to help you pick the one best suited to your laundry needs:

Pre-wash stain removers: These products come in aerosol or pump spray form and contain a solvent for removing grease and/or oil-based stains and soil, as well as some types of ink. They are excellent stain removers for hard-to-clean synthetics.

Bleach: Bleach comes in two types: chlorine and perborate. Chlorine bleach is known for whitening, stain removing and disinfecting, but it can damage some fabrics and finishes. Perborate bleaches are slower acting and are safe for all washable items. They work best in hot or warm water.

Bleach substitutes: These products boost the cleaning power of detergent by conditioning water and aiding in the removal of stains and soil. Special whitening agents help keep whites looking their best. Unlike chlorine bleach, bleach substitutes can be used on all washable fabrics, colors and finishes. Many say the best brand in this category is Borateem Plus.

As with all laundry products, you'll get best results by reading and following label directions. This applies to the above products as well as clothing care labels. Correct laundry procedures are important too, and by writing to the address below you can get a free booklet full of valuable laundry tips: Laundry Booklet - U.S. Borax, Box 75128, Sanford Station, Los Angeles, CA 90075.

BLACK POETRY

WAITING

Waiting I wonder if you will ever return until I remember no one ever can then I wonder what you will be like if you come again and whether I'll forget myself long enough to touch you as you are.

-Philip M. Royster

(That life is a vestibule, an ante-room of home, is this poet's poignant message.)

Black poets, who may wish exposure to our reading public, may send copies of poetry in groups of 12 poems or more to Media Resources, Box 157, Selkirk, N.Y. 12158. Poetry selected would normally appear within 12 to 20 weeks. Because of staff limitations, no copies are returned.
