This is a Federal-aid project and as such, any contractor otherwise qualified by the State of Nevada to perform such work, is not required to be licensed nor to submit applica-

tion for license in advance of submitting a bid or having such bid considered; provided, however, that such exemption does not constitute a waiver of the State's right under its license laws to require a contractor, determined to be a successful bidder, to be licensed to do business in the State of Nevada in connection with the award of a contract to him.

The Nevada State Highway Dept. will on its own initiative, take affirmative action including the imposition of contract sanctions and the initiation of appropriate legal proceedings under any applicable State or Federal law to achieve equal employment opportunity on Federal-aid Highway Projects and will actively cooperate with the Federal Highway Administration in all investigations and enforcement actions undertaken by the Federal Highway Administration. In conjunction with the above statement, the Highway Dept. will not issue plans to an irresponsible bidder. Subsection (B) of the section 112 of Title 23 United States Code has been amended by adding at the end thereof, the following: "Contracts for the construction of each project shall be awarded only on the basis of the lowest RESPONSIVE bid submitted by a bidder meeting established criteria of responsibility."
