

State Directors of the List for Governor

Dr. Kenny Guinn

Robert List today named Assembly woman Sue Wagner and Dr. Kenny Guinn state directors of the List for Governor campaign.

Mrs. Wagner resides in Reno and presents the 25th Assembly District. Dr. Guinn of Las Vegas is administrative vice president of Nevada Savings and Loan Association.

"I believe these two individuals reflect the tone of my candidacy," Attorney General List said. "Both are active, concerned citizens who truly care about the future of this great state of ours."

In making the announcement, List said Mrs. Wagner and Dr. Guinn will take active roles in the campaign. "I did not want figureheads, but individuals who want to be involved and assist in setting the course of my campaign," the Republican candidate for governor said.

List and Assembly woman Wagner have worked together on a number of legislative matters in the past four years, including their successful effort to strengthen child abuse laws in Nevada. The two officials also have supported various legislation such as Ethics in Government Law, the Equal Rights Amendment, and increased senior citizens benefits.

Dr. Guinn worked closely with the Attorney General as Superintendent of Clark County Schools, as well as with List in a number of civic and charitable organizations such as Easter Seal and American Red Cross. The two also have been active in the Southern Nevada Drug Abuse Council and the Nevada State Vocational-Technical Education Council.

Sue Wagner

Assembly woman Wagner is in her second term as a member of the Nevada Assembly and presently is seeking re-election. She has served on the Judiciary and Legislative Functions and Elections committees. Mrs. Wagner was the first woman to ever serve on the Legislative Commission.

Earlier this year, Mrs. Wagner was selected to be one of six young political leaders in the nation to participate in a U.S. Department of State study tour of Mexico.

Mrs. Wagner is married to Dr. Peter Wagner, an associate research professor at the Desert Research Institute. They have two children.

Dr. Guinn, who grew up in Exeter, Calif. where List also lived as a child, was superintendent of Clark County School District until June 30 of this year. He resigned that post to take his present position with Nevada Savings and Loan. Dr. Guinn had been an administrator in the Clark County school system since 1964.

He also has lectured at the university level, as well as taught physical education, English and mathematics in California schools prior to moving to Las Vegas.

Dr. Guinn has been named Jaycee "Young Man of the Year," public administrator of the year for the American society of Public Administration and received the Phi Delta Kappa Educational Leadership Award.

He is active in a number of professional and civic organizations, including the United Way of Southern Nevada, Pop Warner Football program, and White House Conference on Children and Youth.

Dear Editor:

Sitting here as I am, born again in Christ - never to do the things that I know is wrong, keep me wondering why am I here;

Rehabilitated, saved by the grace of God - no sin against God or man, but yet I am here;

This is why one is incarcerated - in order that he can be rehabilitated and sent back into society a better person.

For me, I don't know why justice is trying so hard to confine me to some place that has been set aside for rehabilitation purposes - This I don't need - to send against God and man's law.

Yes, I have broken man's law and God's law a many time, in fact, for the last thirty (30) years - it took me a long time to change my way and except God in my life, what a change it made - "Praise The Lord".

Even the people that are so close to me was shocked to death - they just could not believe what they saw or heard.

I don't have to prove or explain anything - just live the life Jesus intended for me to live; doing as he say do - my light will shine so the whole world can see.

I know beyond a shadow of doubt that the Lord's will must be done. If it is his will for me to be here, I'm here for the period in which he has work for me to perform while being here.

I can not have or do the things I want to anymore - for I am bound to do the Lord's will, whatever it is.

Being saved is not an easy road to travel. There are so many snares set along the way, one must be awful careful not to be trapped by the devil because he is forever present. Being on the inside one can see what is really going on.

Inside in Christ, I can see with spiritual eye what is really happening around me and the things that are not.

"God give me the courage to change things I can, and the wisdom always to tell the difference, in God's love . . .

Your Brother in Christ,
(Bro.) Earl Cage

Dear Editor:

In your July 27 issue of the Voice Newspaper, I observed a full page ad pertaining to candidate Bob Miller, who is running for the office of District Attorney for the City of Las Vegas.

The ad carried a picture of Mr. Miller and Mr. Ray Willis, the former News Director of KORK Television. Mr. Willis was shown endorsing Mr. Miller as a candidate for the people of West Las Vegas. Although I am a resident of the City of North Las Vegas, I am still geographically considered as a westside resident by virtue of the fact that I am BLACK and live in the northwest area of the city.

My point in writing this letter is to inform your paper and its readers that Mr. Ray Willis does not speak for the people of West Las Vegas. He does not and has never lived in the western area of Las Vegas (Westside).

With all due respect to Bob Miller, I wish to bring this letter to your attention, and inform Ray Willis to speak his own convictions and not try to campaign out of his voting area.

Very sincerely,
A registered voter of Clark County

women between the ages of 21 and 25 dropped domestic work from 46% to 6%.

The study predicts that among those with similar amounts of schooling, new job market entrants who are black will earn 90% to 95% of new white entrants salaries. With an education, Black Americans can get on the move.

John L. Dunham, and old friend and official at the U. S. Savings and Loan League in Chicago, once remarked to me that the problem for Black Americans was not that they could not get out of the ghetto, but that they wanted to forget about it!

There are those of us who hope that the statement is not the truth, but if you graduated from a black college or university and don't put a tax deductible check in the mail of \$5.00 to \$50 million to the United Negro College Fund, Inc., 500 East 62nd Street, New York, NY 10021, today at least one mind will have been wasted.

EOB WIC Program Expands

The Economic Opportunity Board of Clark County's WIC Program (Women, Infants and Children) is open for enrollment of low-income pregnant and breast feeding women, infants, and children up to 5 years of age.

Eligibility is determined by income and nutritional risk of the client. Preselected supplemental foods for the expectant mother include eggs, milk, cheese, cereal and juices. Foods for new born infants include, iron fortified formula, and soy base formula for those infants allergic to milk, infant cereal, and juices. The voucher/check received by the client may be cashed at designated stores in the area.

J. David Hoggard, Executive Director stated "he was happy to announce to the community the new expanded WIC services for Clark County residents". Mrs. Esther Bell, Health Services Administrator stated "Many residents of Clark County may be unaware of the expansion of the WIC services offered by this agency's three clinics, she added all eligible clients could benefit greatly from this program.
