FOR THE WHOLE SOUL NATION

The vernal equinox is occurring, the Sun moves into Aries, and the fibers of renewal are twitching through the earth—nature and nature's creatures, including man, want to be reborn again. Black people are birthing another segment of their consciousness—one which understands more fully what it is to be an American and what it is to be a black-skinned person; and more holistically what it is to be a black American. We are synthesizing ourselves into single beings with a collective spirit. What the individual wants for himself, he wants for others—but only if others are desirous of attaining the same thing. Struggle—even though it seems individual—is every collective.

Since this is the beginning of the Solar Year, it is a good idea for each of us as individuals to commit ourselves to a collective consciousness—that is, whatever we do to accomplish our goals as individual black Americans, we do also to help others realize their goals. This is how the race will evolve and live—if we see it as a natural desire to help those around us who are us. The problem besetting black life style can no longer be blamed solely on the white man. It is up to us to decide upon the values for a daily life style—values which will allow us peace and harmony and sharing trust and kindness and patience and tolerance and helping and Love among us. The collectivity of these virtues cut the chains of our past slavery. They must be brought forth again to cut the psychological chains that are presently enslaving our hearts and minds to materialism. "And they shall be afraid and ashamed of Ethiopia their expectation, and of Egypt their glory." (Isaiah

30:5)

ARIES — March 21-April 20

Your whole being must be rarin' to git up and go—to be about the business of doing, so that you can reap the rewards of winter's isolation. Remember to share time and space as well as your Bright Ideas.

TAURUS — April 21-May 21

It may be said that you are slow to learn, but what you know stays with you forever. You may be experiencing realizations that come like bright and beautiful flashes of Light. Don't be bewildered—this also is Truth.

GEMINI — May 22-June 21

The first day of Spring does not mean an end of winter's solitude and isolation for everyone. If you want to see things more clearly, you must be single-hearted and willing to give whatever is asked of you.

CANCER — June 22-July 23

Don't go back to fussin' and cussin' just because things are not going your way. It does hurt to be disapproved of and disrespected, especially after trying so hard for opposite results. Be cool—time is approaching your number.

LEO—July 24-August 23

It's all right for the heart to rule the head, if the heart is not dominated by the petty ego. It is not easy to free the heart of this small-time tyrant—indeed, it requires constant watching and constant praying.

VIRGO — August 24-September 23

You've been telling yourself that things will get better in the Spring of the year—and they will—if you've been staving off fear, depression and melancholia in order to make them better. God helps those who help themselves.

LIBRA — September 24-October 23

Secrecy and magic and underground and hidden things

Today, many of America's glass cleaning experts are homemakers. To quickly and effectively clean glass, chrome, small appliances and other washable surfaces, they're using Glass*Plus® glass, appliance and cabinet cleaner with its Easy® trigger sprayer. Just adjust the trigger to "stream" or "spray" position; spray surfaces to be cleaned and wipe dry with a paper towel or lint-free cloth.

and off-beat people can seem very fascinating at this point in time and space. However, if you're flirting with danger without spiritual back-up, be ready to be captured and newly enslaved.

SCORPIO—October 24-November 22

You'd rather break down the walls of the tunnel than travel to the end of the tunnel—and this might be all right if the tunnel exists without purpose. But how do you know...and who will you ask to find out?

SAGITTARIUS—November 23-December 21

Reality—now you see it, now you don't! It is often fleeting, evasive and seemingly unpossessable—but not really. Reality is also the need for spring cleaning and conscientious planning and organization.

CAPRICORN — December 22-January 20

The on-coming Spring season even pushes your sentimentality button, and it's a good idea to buy plants, or think about a flower garden. Every human is a flower in the universe of God's garden—the blessed are lillies in the field.

AQUARIUS — January 21-February 19

It will seem like an ill omen to begin spring with a lover's quarrel, so avoid all possibilities of this occurring. There is probably a dynamic, magnetic energy coursing through your nerve fibers and chanting for release. Are you ready?

PISCES — February 20-March 20

If something is over, be sure that something is also beginning. However, if you feel twinges of uneasiness and unhappiness, don't make sudden, immediate or drastic changes. Do other things and wait for the right time.
