Wearing red jasper was supposed by the ancient Egyptians to give young girls grace and beauty.

WHAT YOUR STARS SAY

May 2-8

FOR THE WHOLE SOUL NATION

A hot flash of energy may pass through the collective flesh of black people, and we may feel a new surge of creative energy raising our individual desire for survival to a new plane. As ideas occur in a race of people, we may be realizing more and more that we are not responsible for our earthly and mundane suffering. However, we are being required to put forth a supreme effort to be, live and do better in order to actualize our Selfhood as individuals and as beings of a particular race.

This period begins with Mercury in opposition to Pluto and Mars trine Neptune. The insinuation being put to our conscious minds is that if the meek are to inherit the earth, they must fight for it. If the starved and hungry on any level (psychic, mental, emotional, physical) are to be fed, they must feed themselves. If the poor in Spirit are intent on seeing God, they must journey along the Path to where Spirit dwells. In short, responsibility for a creative, expansive and fulfilled existence rests with us. Truth is, no one is required to give us anything—not jobs, not freedom, not release from poverty, not a cure for our mental, emotional and physical diseases. Each one of us has to do this for our ownself, and in doing for the individual self, we accomplish for the entire race. If we help each other along the way as much as we

can, we will evolve into a fortified people—a race that lives on Love.

America is the scientific and technological Mecca of the 21st century. The abuse of this knowledge is being felt by people all over the world. But the earth has turned. Black people evolve towards the eternal Sun. If we seek the God within, all things are possible for us as individuals and as a people. "Ye are the salt of the earth: but if the salt have lost his savour, wherewith shall it be salted? It is good for nothing but to be cast out, and to be trodden under the foot of men." (Matthew 5:13)

ARIES — March 21-April 20
There's a saying: If you study long, you study wrong. Once you've looked at a problem from every-which-way, you might have to leave the problem alone so it can solve itself. Remember too, that not all problems have solutions.

TAURUS — April 21-May 21
You're definitely confused! You don't know if you want something you don't need, or if you need something you don't want. If you can't afford what you want and need, be patient...changes in life are eternal.

GEMINI — May 22-June 21
Don't get caught in any lies, or your reputation will suffer now and in the future. One way to fight off irritability is to read books of an inspirational nature. The patience to obtain one's objective is often a greater achievement than the goal itself.

CANCER — June 22-July 23
Material beauty rarely goes beyond the surface of the thing; spiritual beauty is the result of one's willingness to give so that others will be happy. Deciding which course of beauty you will pursue will eventually bring you Joy—or its opposite.

LEO—July 24-August 23
You saw a flash of light and mistook it for eternal Sun; now you are trying to cast off shadows. It's a pity that kingly natures are subjected to the trials and tribulations of being human. "...but see the lilies in the field..."

VIRGO — August 24-September 23
Considering the fate of men and nations, you seem to be doing quite well—however, it would be good for you to realize that an opened door leads to outside, and going outside is not necessarily the end of the journey. See the Sun!

LIBRA — September 24-October 23
People may be out to ruin you for no other purpose than seeing fine and noble character destroyed. If you've been about the Truth, you're invincible; otherwise, you might have to deal with the Lords of Karma and accept whatever lesson they send.

SCORPIO—October 24-November 22
It is terribly hard for you, at times, to think of anything other than what you want or need. However, this self-absorption can alienate you from family and friends—especially if you misuse and

abuse them to reach your goals.

SAGITTARIUS—November 23-December 21

A living and breathing omen may come forward and confirm your crazy dream, or quixotic feelings. Be cautious when investigating prophets and modern-day seers. All knowledge resides in you. You are the answer to your questions.

CAPRICORN — December 22-January 20

Your mind and your body seem to be moving in the same direction these days, which means that progress is smooth. Do not let love affairs depress you so much that worldly matters suffer. Be glad to have a job to go to! Smile!

AQUARIUS — January 21-February 19

You must be storming your brain to figure out how you're going to come up with enough money to allow you the freedom to think and envision in peace. This won't be difficult if you bear in mind that the pyramids weren't built in a day. Life takes time.

PISCES — February 20-March 20

You should consider slowing down, taking your time, even though everything else is rush-rush. Your nervous system requires tranquility, and a lessening of friction. Learn also to compromise because if you can't bend, you will break.
