HUMAN RELATIONS OFFICE

END-OF-YEAR REPORT 1978-79

During the 1978/779 school year staff was increased from 6 to 16 persons. This expansion included extending coverage to the sixth Grade Centers and Opportunity School. This has reduced the work load for most staff members to three schools. The increase has made it possible for more home visitations, student problem solving, and more time to encourage student involvement in school activities.

When implementing ethnic programs such as Hispanic Week, Black History Week, etc. the Human Relations Workers contacted many agencies to provide 'role' models such as Mrs. Culliver-Westside Library, Jay Cameron-Jazz Musician, and Virginia Brewster-School Board Member as guest speakers for Black History Week.

The human Relations Office surveyed the Sixth Grade Centers, Junior and Senior High Schools, to determine the ethnic breakdown of student participation in Student Government, Cheerleaders, Songleaders, etc., excluding sports. The results of this survey will be utilized to identify any lack of minority involvement in student activities. Attached is a chart listing some of the activities that the Human Relations Workers are involved in.

During the school year the Human Relations Workers were asked to transport students home for various reasons. The workers discussed problems with parents and students. Sometimes appointments were scheduled for parent conferences.

The following list is a breakdown of home visitations for this school year:

| | |
|---------------------|-----|
| Elementary | 1 |
| Sixth Grade Centers | 43 |
| Junior High Schools | 267 |
| High Schools | 246 |
| TOTAL | 557 |

Monthly and annual reports are turned in by each Human Relations Worker to provide a summary of their activities. These reports can be reviewed in the Human Relations office of the Pupil Personnel Services Department.

The following is a partial list of Community Agencies used to implement Human Relations Programs:

- Voice Newspaper
- Indian Education
- News Media
- Latin Chamber of Commerce
- NAACP
- University of Nevada LV
- Convention Authority
- Poor People Pulling Together
- Nevada State Education
- Marion Bennett Youth Program
- School Bell Program
- EOB
- STRIDE
- Black and White, Inc.
- Service Employment
- Redevelopment (SER)

For example SER, a Latino organization, which is involved on the advisory board for the Hispanic Club (HAY), has provided a scholarship, and assistance for implementing Human Relations Programs.

ENERGY SAVING LESSON - Students are encouraged to make their own choices in an Economics and Energy class by comparing electric versus hand -powered devices. The

course, taught by Pat Roeder of Rose Warren Elementary School, is designed to give students practical alternatives in view of worldwide concerns about energy shortages. Pictured are Toni Wesley and Jenni Appleyard.
