

Going Back To Braids

BY LEI STROUGHTER

Looks like we're going back to braids and does it ever look good. Check out the freedom in hair movement; check out the beauty; check out the braids.

An ancient hair style that's as old as the beginning of time, has

come full circle and made its debut once again.

Yes, this look is indeed a continuation from the Afro that has brought us through an extension of our heritage.

And, as we've always known, it is beautiful.

If we had to take a bet on The Sentinel, the odds would be 100 to 1 on its greatness. We know a winner when we see one! Good Luck.

'Jackson Street Beat'

'Right-On' For Folks Who Show They're Concerned!

By Rudi Jackson

'Tis good-N-plenty seeing community people (adults and youth) taking a new and concerned LOOK at rebuilding the walls which have been going to ruin for so long... Yes Lawd, they are really starting to do things to bring about change from within and are no longer waiting for the so-called to bring about this change... So Badly!... less home folks are double-parking, blocking traffic (like they don't go doing downtown and out in other sections-o-the city... RIGHT-ON for the folks who show care and concern for the place we live.

Saw Tony Harper smacking Gumbo at Louisiana Fish eatery, yet he took the time to chat about the super-improving going on in the minds of Soul Folks of this community... Hats off to: Mr. Albert Dunn and Staff, who are busy as bees making great changes on the corner of Lake Mead & H Street. New paint and a big pretty sign says, "Allen Restaurant & Chapel." They be just showing people who be of little faith just what it is and means to WALK TALL even when faced with the adverse wattage that be powering this city of fun & sun.

Black Ashes fill the skies again... since the earthy rumbling is being felt in this sleep and slipping volcano-ised West Las Vegas. Question: WHO? WHAT? and WHY? is there no nice place for people to hold up-lifting events in this local?...

Say What! Wake up, concerned ones and work to bring about wholesome culture and care to this, OUR COMMUNITY. It is working for others in these United States of America. Make Jackson Street Your Beat and start to paint your own wagon. Stop looking for some-one-way-place-else to bring about a change on this side which is dubbed your-side-O-Town. Very few grub-stakes are being put in palms-o-the hands of a few... There can and will be so much more improving if we work at doing some thing and stop all the small talk about what IT ONCE WAS ON JACKSON STREET. WE ARE LINED WITH LIFE NOW! and for days to come. Lets help each one the other to live and cope in this social setting.

Hey! School is out soon so watch out for the children in more than one way. Plans are being made for a wholesome program in June for the young persons of our community, namely: Drama and Modeling Workshops at the A.D. Guy Center on Highland & McWilliams. More infor to come! O.K.

Vital Food Stamp Information

Congress gave speedy final approval last week to a \$2.56 billion appropriation to keep the program going for at least a few more months.

The 21 million Americans who rely on food stamps for their daily bread can take comfort after having been assured that their subsidies will not be halted next month.

The emergency appropriation was sent to President Carter to be signed into law, along with companion

legislation authorizing continuation of the program for the remainder of this fiscal year and for all of fiscal 1981.

The emergency money bill passed the House, 316-56, and the Senate, 57-17.

New Food Stamp Regulations which go into effect June 2 require participants to have or obtain social security numbers as a requirement for program participation.

This requirement will

be mandatory for all newly applying households; at the time a household reapplies; or at any time a currently participating household has any contact with the local office. This requirement applies to all adult members of a household and minors under 18 years of age who have countable income.

Individuals who refuse to supply social security numbers will be disqualified from the Food Stamp Program until compliance.
