

for those ladies traveling abroad...

For those ladies traveling abroad this summer, be the sight to be seen in a lovely two-piece suit by Jiana. This stunning red & black, batik print dress is smartly complemented by its coordinating jacket and black feathered hat. This suit is by far a first class ticket for any place you want to go.

Soft, yet sleek, describes this beautiful dress worn by Sharon. Made of 100 percent rayon this beige dress, accessorized with a gold, string bean belt, is made for easy comfort and movement. Whether it's business or pleasure, step out in style in this beautiful, soft look.

"I Love The Night Life" the records cry, and with them so do the fashions. No one can disagree that Mona's look is vibrating. She wears a burgundy sequined "big top," gold lame baggies, set off with a gold sequined hat. These clothes will make anyone sparkle on the disco floor.

To achieve your own individual look, try a sense of contrast in an unexpected combination, anywhere from the dazzling disco to a taste of sophistication.
