This is a Federal-aid project and as such, any contractor otherwise qualified by the State of Nevada to perform such work, is not required to be licensed nor to submit application for license in advance of submitting a bid or having such bid considered; provided, however, that such exemption does not constitute a waiver of the State's right under its license laws to require a contractor, determined to be a successful bidder, to be licensed to do business in the State of Nevada in connection with the award of a contract to him.

The State of Nevada Department of Transportation will on its own initiative, take affirmative action, including the imposition of contract sanctions and the initiation of appropriate legal proceedings under any applicable State or Federal law to achieve equal employment opportunity on Federal-aid Highway Projects and will actively cooperate with the Federal Highway Administration in all investigations and enforcement actions undertaken by the Federal Highway Administration. In conjunction with the above statement, the Department of Transportation will not issue plans to an irresponsible bidder.

Subsection (B) of the section 112 of Title 23 United States Code has been amended by adding at the end thereof, the following: "Contracts for the construction of each project shall be awarded only on the basis of the lowest responsive bid submitted by a bidder meeting established criteria of responsibility".

**DOOLITTLE CENTER PLAGUED WITH VANDALISM**

The Las Vegas City Fathers have appealed to residents of the Black community to do all within their power to aid in the elimination of problems of vandalism and disorderly conduct at the Doolittle Recreation Center at Lake Mead and "J" Streets.

More than \$200,000 have been spent on improvements at Doolittle Center and if the vandalism ceases, more will be spent this year.

Community residents have complained of broken glass, no lights on the wall field, and illegal activity in and near the parking lot.

Just completed at the Center are improvements totaling close to \$100,000, and another \$100,000 was spent last year remodeling the swimming pool.

Work has begun on repairing the damage that has been done, but help is needed to discourage littering and bottle breaking.

Recently stolen at the Center was the body-building equipment. This will be replaced by a universal weight-lifting machine.

Also on the drawing board and waiting for the availability of funds is the installation of indoor racquetball courts.

The city is requesting help from the Metropolitan Police Department and from citizens and parents in the community. Also, when the park ranger program is implemented, one of the rangers will be assigned to the center.

**HIGH BLOOD PRESSURE**

At least one in every four adults gas it. It can be controlled but it can also cripple and kill.

It's high blood pressure, and it adds to the workload of your heart and arteries. If you have high blood pressure, your heart must pump with more force and your arteries carry more blood than normally. If the condition continues for a long time, your heart and arteries may not function as well as they should and other body organs may also be affected. There is an increased risk of stroke, heart failure, kidney failure and heart attack.

Some people with high blood pressure have headaches, dizziness, fatigue, tension and shortness of breath, but most have no symptoms at all.

The best way to protect yourself from high-blood pressure is to see a doctor or health center. If you're diagnosed as having the problem, follow medical advice about taking medicine and changing your diet and health habits, no matter how well you feel.

By doing so, you may be able to take a load off your heart and add years to your life.
