As many of you (who have moved from the east coast or midwestern states) have discovered, eggshell and white are seasonless colors, worn year around here in Nevada and California.

Gunne Sax, a leading manufacturer in women's apparel has captured in eggshell and white, a design in dresses that offers simplicity, yet a certain level of sophistication. Made of 100% cotton, not only are these dresses functional in the sense of accessorizing, but also delightful to the eye.

Of course, we can't forget our men! Jackie & Walter Fulton, leading fashion designers in the Vegas area, have designed leisure wear, for the man on the move, who appreciates comfort as well as class.
