*Satisfaction From Within*

## A Message From The President And The Executive Director

The greatest satisfaction in producing a pageant comes from within. Watching young people emerge from a pageant environment confident, poised and better prepared to cope with the demands of modern society, justifies the arduous tasks inherent in pageant production. When our youth are able to bring out the best in themselves, they acquire the ability to bring out the best in others. As our

youths develop self-assurance, confidence and poise, they correspondingly stimulate others to develop these same traits.

Concomitant with the emergence of youth and their subsequent entry into full participation of citizenship, adults in modern society must listen to our youths rather than impose unrealistic demands. Adults must understand rather than rule, assist

rather than insist. Regardless of one's perspective of the oddities of youth and their alleged shortcomings, the youth of today have not failed to solve today's problems with today's solutions. We, as adults, must accept the wisdom of youth and provide leadership, opportunities and open channels of communication between youths and adults.

Our ultimate dream is to establish regional,

state and local offices where 25 to 30 youths can be trained each year in the area of public relations, marketing, pageant productions, pageant promotions, accounting and general office management. Trainees would receive a

salary or stipend during training. Youth Together, Inc. is committed to making this dream a reality. With your help and continued support, it can and will be done.

## Acknowledgements

As you lend your applause to our contestants as they display their outstanding beauty and charm, but more so, their intelligence, also send them your encouragement to strive toward even greater accomplishment.
