

# Fashions

I'm sure many of you will agree when I make the statement, "When it comes to new fashions, Las Vegas is often left in the dust."

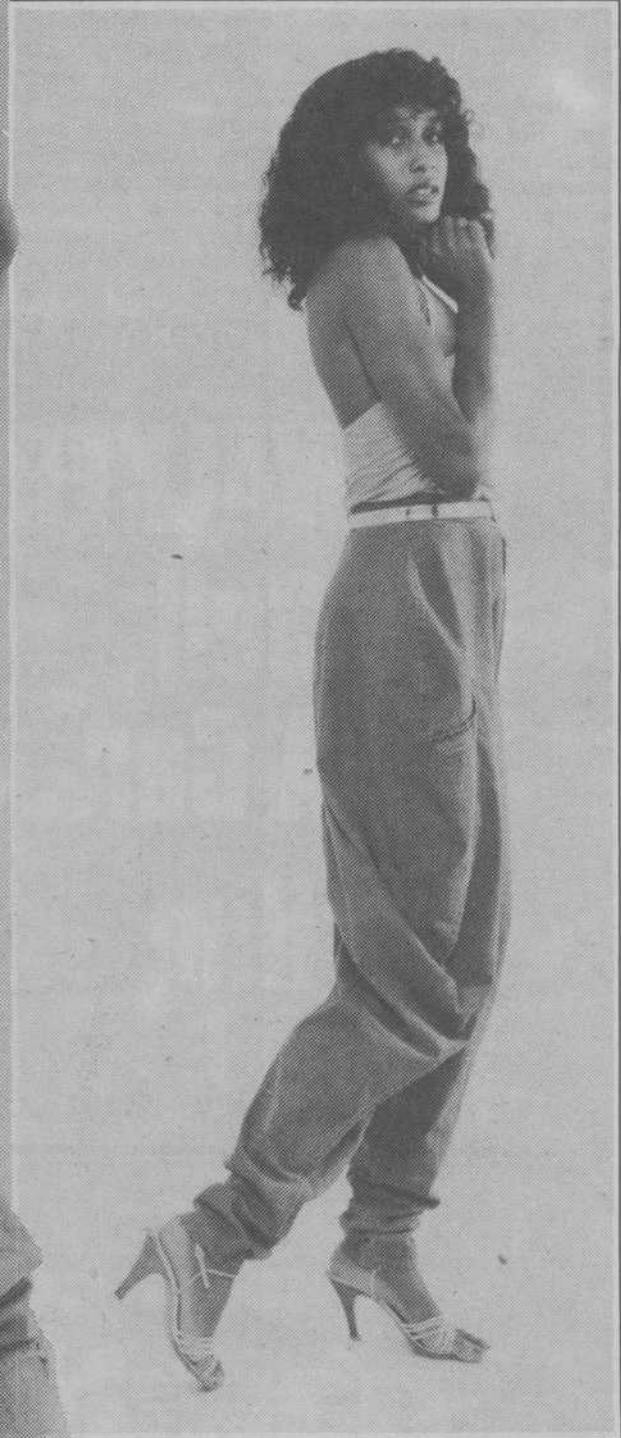

In our upcoming editions of Sentinel's Fashion Page, we will try to bring you a sneak preview of fashions being shown in different areas of the country.

This week, famous Hair Artist, Alison Palm is modeling the ever new Baloon Jeans by Bon-Ton. This flair-leg jean, tapered at the ankle, is at it's best when teamed with a body suit.

These jeans are great for comfort and maneuverability, and made especially for the busy lady who loves to have fun.
