Space Heater Safety

It is once again the time for us to begin pulling out space heaters. Yes, the winter months are upon us, therefore, it is up to each and everyone of us to take the necessary precautions. This week we will focus on general safety tips for all space heaters.

- 1. Read the label and follow the instructions for installation and operation.
- 2. Keep papers, clothing, furniture, and especially children away from space heaters.
- 3. Keep the heater in safe working condition. Replace, missing guards and controls at once.
