STUDENTS DEVOTE MORE TIME TO READING

Al Brown, Coordinator Human Relations

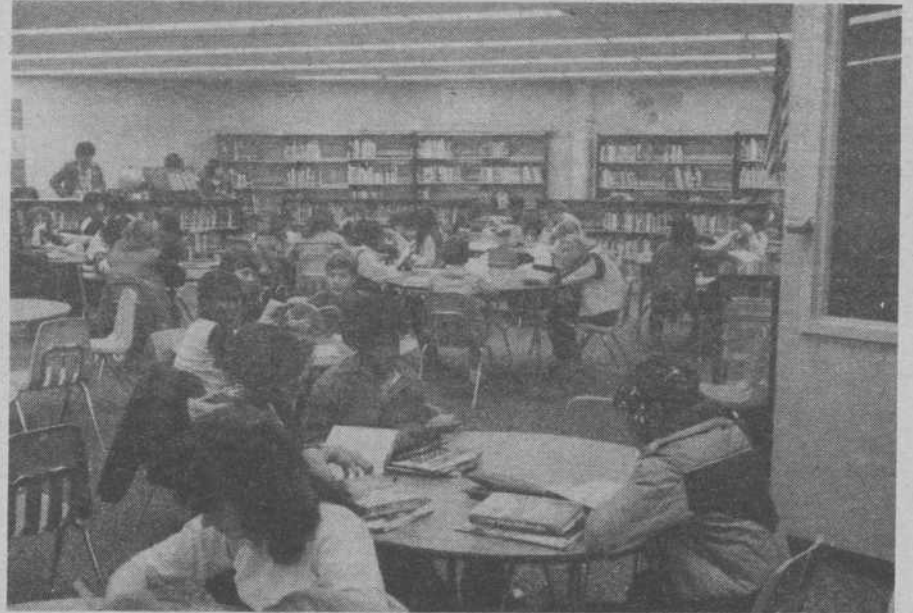

HAVE TWO GOALS: Wisdom that is knowing and doing right and common sense. Everyone admires a man with good sense, but a man with a warped mind is despised.

Reading is the House-Light of Knowledge because it involves more than the ability to recognize words, to group words into thought units; more than to note details and follow directions, more than the ability in each and all the skill and techniques. Reading is a companionship of life to decode all the wisdom

we would like to receive in the train of life.

Reading enables the person to be more critical by rigorous thinking. The reader can organize more effectively the contributions from many sources; and can adjust to individuals needs and understand it.

Books can be chosen to help solve any problem or satisfy any interest or need. Reading is the House-Light of knowledge, without it you feel lost in the darkness of circumstances. It is a tool needed daily.
