New Trends For '81

The excitement of the coming New Year is in the air as we pack away our memories of 1980, both good and bad, and look forward to a fresh start in spirits and energies for the coming year.

Speaking of a fresh start in spirits, step into 1981 in a 3 piece set by Robert Courtney of New York. Red Print in silk chiffon is an exciting way to step out on the dance floor and have a good time.

After a long season, for a new look in hats the impact of stunning, striking and sophisticated brims are coming back stronger than ever and the pork-pie hat is only one example. You can purchase this wool beauty in beige, rust, forest green, doeskin or cocoa brown.

Teamed with the pork-pie hat is a georgette evening pant set in doeskin or black for the sophisticated mood.

If you're looking for a new concept in Fashions with the nostalgic look of class in the Vegas area, then you want to look for C'EST MOI, one of the few shops that carry stunning and striking fashions from New York, Texas and California.

The styles shown here are only a few to be seen at C'EST MOI.
