5th Dimension Scores At Silverbird

The Fifth Dimension who, in an earlier booking, records in the Continental Theatre of the Silverbird, opened there July 3 to a very enthusiastic full house of firstnighters.

talent and an individual charisma that is magnetic.

Memories were recalled when they sang such hits as "Up, Up And Away," "Stoned Soul Picnic,"

5th DIMENSION

The Fifth's unique sound became popular in the 1960s, and the group continues to radiate popular appeal. Two-fifths of the original group, Marilyn McCoo and Billy Davis, husband and wife team, left some time ago and have appeared together around the country. The remaining three, Florence LaRue, Ron Townsend and LaMonte McLemore, plus the two newest members, Joyce Wright and Michael Proctor, create that oh, so familiar sensation. Each is blessed with

"Aquarius" and "One Less Bell To Answer." A Duke Ellington medley including old favorites like "Mood Indigo," "Don't Get Around Much Anymore" and "A-Train" brought a touch of nostalgia to all, as did their special segment

The finale, a tribute to the children of Atlanta, and to all youngsters, called "Tomorrow Belongs To The Children," was very moving. A dynamic "five-some."

Showtimes 9 p.m. and midnight, through July 16.

SPARKLING STARLET -- Fireworks and desires ignite as lovely Loretta Holloway lights up the Top O'The Dunes at the Dunes Hotel & Country Club with her lyrical melodies every night except Sunday. SMOKING

The statistics are grim... illness and death from diseases related to smoking. Still, most people don't believe it will happen to them, don't believe that they could become one of those statistics. Some people even refuse to believe that the danger exists. Unfortunately it does exist.

But there are other factors... cigarettes often become a controlling factor in a person's life.

The American Lung Association of Nevada has two "Freedom from Smoking" programs: the Self-Help program, offering a do-it-yourself approach to quitting smoking; and the Clinic, offering group-support and interaction on the way to a healthier life style.

For information on these programs, call the American Lung Association of Nevada, 454-2500.
