## A Word Through Bishop E. N. Webb:

Bishop E. N. Webb

...And peace (to you) from God our Father and the Lord Jesus Christ. Philippians 1:2; John 14:25-31; Psalm 4.

An artist was once commissioned to put on canvas his impressions of peace and its meaning. After a lot of effort he painted a pic-

## GOD GIVES US PEACE

ture of a bird safely nestled on its nest amid the raging winds of a mighty storm.

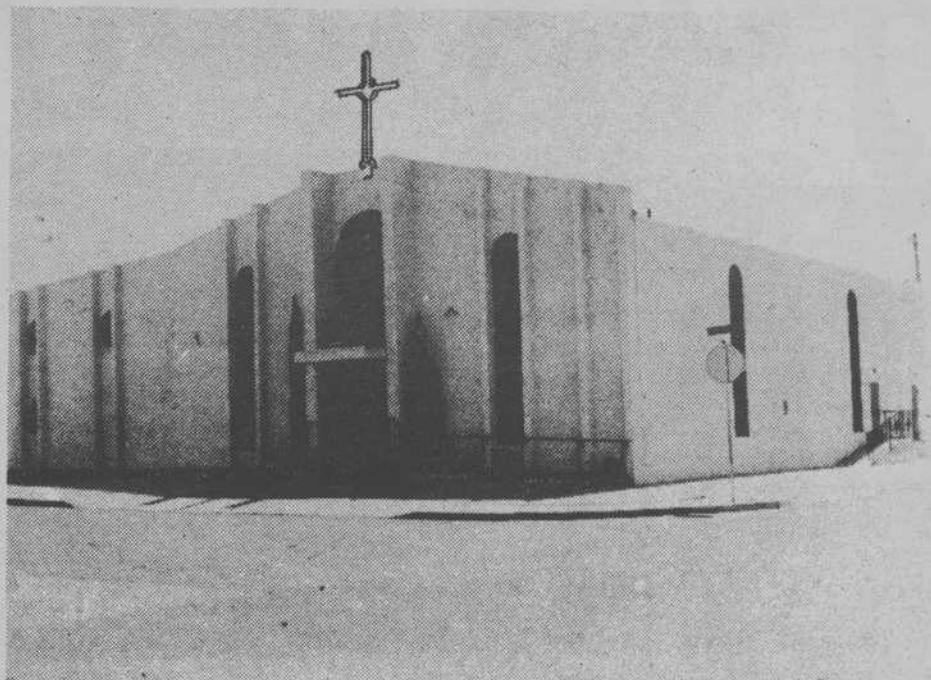

The peace of God can be likened unto that. We praise Him that he has given us His peace in Christ Jesus. Because of our sins, we were separated from Him. A great warfare against God existed in our lives. We were totally without hope, but now and forever.

In Jesus there is the declaration that the hostilities between God and man have come to an end. Jesus not only abridged the gap that

we had created by our sinfulness — He is the Bridge, the Mediator. The warfare is over. In Him we have peace with God.

The good news is also that while the storms of life may be raging all around us we, like the bird, are safely nestled in the everlasting arms of Him who created that peace in the first place. Our Lord promises us that He will never leave us or let us go. Isn't that a great thought for this day?

## Community Baptist Church 'Truss' said Lost

The Community Baptist Church, slated to be the city of Henderson's first black church, will have to undergo a delay in its building. The church, which is to be built at 245 Foster Ave., held its ground-breaking ceremonies just 10 days ago.

However, according to the church pastor, Rev. Sam Roberson, the city of Henderson "intentionally or negligently" has lost five sets of building plans, along with necessary soil tests and stress for truss calculations, which he submitted to the city building department in April.

"The loss of the plans means it will take additional time, labor and delay in getting a building permit for the church," Roberson said.

A building department spokeswoman who denied that the plans had been lost, said that the plans had been

returned to Roberson on Thursday for him to get an engineer's stamp.

Roberson reported, however, that he was told that the five sets of plans, each of which has 105 sheets in it, as well as the soil tests and stress truss calculations had been lost and that he would have to submit two new sets. He said the building department did return one set of plans to him, but that the floor plans for the church were missing from that set. He reported that it had originally cost him \$20,000 to have the plans drawn up, but that he does not know how much it will cost to get the new sets the building department is requesting.

"I don't know whether they (the plans) were lost intentionally or negligently, but the church will be the first thing that blacks will own in Henderson," Roberson said.
