## NEW LOOKS IN SPRING DRESSES

Predominant are shorter lengths and blousons treated in a variety of ways. It all adds up to an edge of modernity and sophistication.

A great shape is the long torso, narrow but easy, with the hips held over a soft, short skirt. Here shown in a silk crepe de chine patchwork print of kaleidoscopic color and pattern.

Featured here a short dress in black and white silk charmeuse, dotted in fuchsia, bloused to the hips and then pleated.
