SURE THINGS FOR WHEN YOU WANT TO BE RIGHT!

This navy wool gabardine doublebreasted coatdress moves easily from a day at the office into an evening dinner date. It needs nothing more than a pair of dark basic

pumps worn beneath navy hose, bold silver bracelets and large stunning silver earrings.

Tailored clothing is always appropriate and can make the difference in how comfortable you feel in what you're wearing. Some SURE THINGS that will help you look your best at any time are shown here.

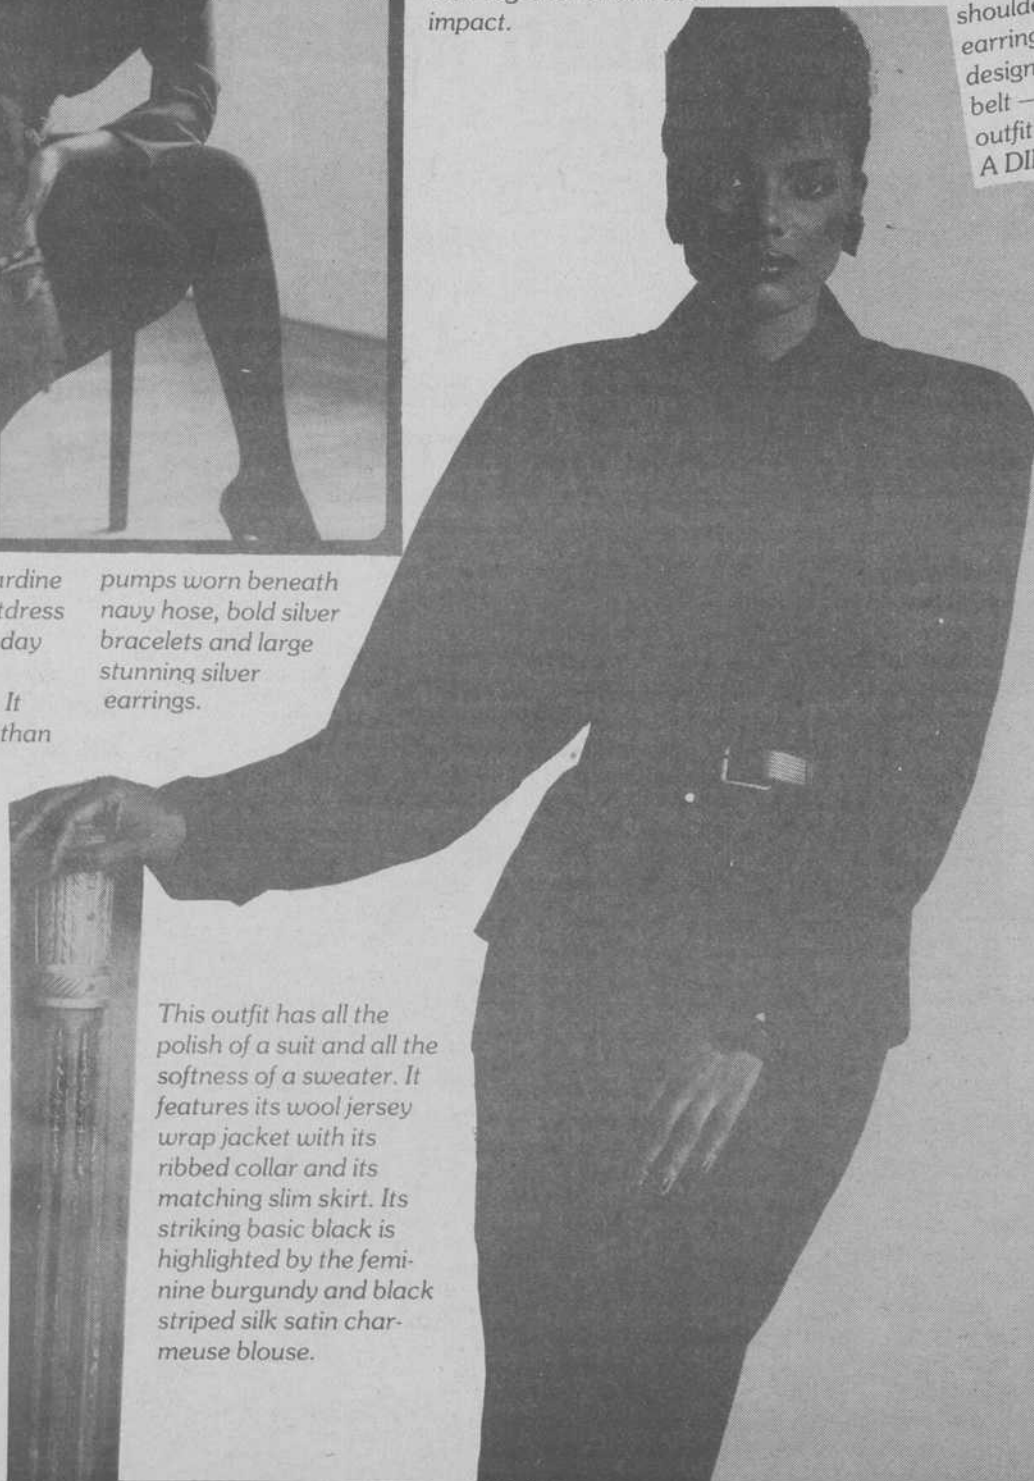

DARK COLORS are sure things. They can pull a look together or can add impact.

Elegant is this outfit featuring a menswear plaid jacket and newest cut trousers. The tailored effect is softened by the feminine silk blouse with the large bow. Dashing accessories — the smashing hat boasting long pheasant feathers, shoulder-length feather earrings and unusually designed supple leather belt — pull this tailored outfit together, but WITH A DIFFERENCE!

A SURE THING is a black knit suit like the one shown here. The tailored effect is softened by the elegant tapestry weave of the knit material and the soft silk shirt in white that

sets it off. The sculptured gold buttons on the cardigan are complimented by noticeable gold earrings and a large gold bracelet.

This outfit has all the polish of a suit and all the softness of a sweater. It features its wool jersey wrap jacket with its ribbed collar and its matching slim skirt. Its striking basic black is highlighted by the feminine burgundy and black striped silk satin charmeuse blouse.
