main objective of Congress now, for it is more important than the fate of individual members or the whims of the Administration.

Salaries, not including fringe benefits, for automotive mechanic begin at \$8.38 an hour and may increase to \$9.83 an hour over an eight-year period. Annually, this presently represents a \$16,837 starting salary for a full-time employee that increases to \$19,730 in eight years.

"I do not want to give the impression we will be hiring great numbers of people in the coming months," the Postmaster said. "I anticipate approximately 4 vacancies will occur in the next two years that will be filled by hiring people from our job register. We need qualified people who will be willing to accept employment, and we want to offer people in the local community the chance to compete for these openings by applying for and taking the exams."
