The Creation of a Legend Begins with the ANIMAL TRAINER™

VERSATILE TRAINING AND FITNESS EXERCISE UNIT
The Animal Trainer exercise unit is an outstanding way to obtain physical fitness and is also an exciting and challenging way to create your own legacy. The Animal Trainer was designed to provide you with the ability to increase your speed, power, flexibility, strength and aerobic cardiovascular endurance. It has been found that progressive resistance training is a time-tested, proven way to increase physical fitness. What sets the Animal Trainer apart from other methods of physical fitness exercise equipment is the versatility of the machine itself.

The Animal Trainer provides you with the proven effectiveness of rhythmic, continuous movement, variable work rates and a dynamic combination of exercise for the chest, back, abdominals, shoulders and arms while the legs are getting the benefit of an isometric exercise.

The Animal Trainer accommodates both low work rates for cardiovascular and post-surgical rehabilitation, and increased work loads for the strength and endurance training of world-class athletes. It enables you to work at 100% of your capacity at all times because the Animal Trainer is isokinetic, offering accommodating resistance throughout a full range of motion giving a balanced conditioning of reciprocal muscle groups - in the most intelligible efficient use of human power ever conceived, and it's fun to use.

DURABLE AND EASY TO USE
Designed and built in the United States, the rugged Animal Trainer stands up to your most strenuous exercise routines. It can be used in the privacy of your home or in a professional gym. Easy to store - periodically or daily - exercise whenever you wish.

The Animal Trainer is a great equalizer, allowing people of all ages, body types, heights and physical abilities to perform at their best. It only takes seconds to properly adjust the work load, height and arm length mechanisms. Set the easy to read digital timer and begin your exercise program. Once your fitness goal is reached, that enjoyment can be extended to the limits of your own imagination.

WHO BENEFITS FROM USING THE ANIMAL TRAINER?
Everyone involved in Athletic Sports Improvement, Body Building, Cardiovascular Fitness, Corrective and Remedial Training, Weight Gaining, weight loss diet, Weight Loss diets, correct diet, General Physical Fitness, Pulmonary Fitness, Rehabilitation, Endurance and Strength Training, can benefit from a regular exercise program on the Animal Trainer.

Since a key ingredient for a lifetime of good health is a consistently applied exercise program there's no better choice than the Animal Trainer exercise unit. It lets you reach out in all dimensions for personal fulfillment or athletic victory while achieving your best possible performance.
