But the thoughts which sprang up to cause a major concern is a Rather-trashy way that has been the trick and trade of this white-ruled government to keep people who live here against one another — ME says Hats Off To Any Blackman who will go to the aid of another Black Man. Since we as a Race of Beautiful People were forced to hate one the other and to fearfully love the Teachers of Hate & Distrust, The Whites who have ruled and Ruled by Trickery and Division of People.

The moment to act is now: Beware! Cause they out there to get you and keep you divided and mixed up with hate, drugs, Booze, "a few fists of dollars," which is "Honest to God" Slave-n-Master world. Only worse now than in the past. IF U Let Um They Will Kill You Dead!

So much crime is in T.W.S.O.T. due to folks being out of work, many not wanting to work; they be so many strung out on The Pipe, Getting tough on School Children will not end the un-rest that is all over this world. Preachers can't and ain't doing much cause they do not "Hold fast to that which is Right." They pray and go right along with the Mad-men who rule & run this world with its Wars & Poverty and massive talks of Peace. Peace — when there is no Peace. Who are God's Children and Who are not? The drug busts that go down. The war on the cheaters & Killers keeps growing . . . .

The ones making a few more coins, in most cases, could care less for poor people's woes. We are led to about the Good-life, yet thousands upon thousands die of lack of food, clothing, shelter. The whole damn system of the way we see life being dealt to the masses is a killer of bodies and minds. A person has to really work hard to stay free of the traps of painful living . . . .

of black efforts to save it transcend the immediate situation. The extent to which the black community mobilizes itself to save Fisk is a measure of the black will to preserve vital community institutions.

The danger of not acting is that it sends a message to other Americans that we don't value our institutions or that we don't understand their value to us.

That's a terrible message to send as the wave of recessions has fiscally weakened black institutions at the very time when their importance to black people has grown.

Yes, Fisk — and other black institutions of higher education — needs its fair share of government and private dollars earmarked for education. But as important, it needs an outpouring of donations from the black community itself so that it can retire its debts and lay the groundwork for its next century of excellence.

This is a critical test for all black people, but especially for the fortunate few who have made it into the middle class, many of them through receiving a good education at historically black colleges, including Fisk.

So this is no time for rhetoric about saving black institutions, but for action — and that means cash donations. If every

new situations. They gradually build up a reservoir of responses. By making their own decision and working things out for themselves, they gain a feeling of self-respect and adequacy.

A child should be encouraged to face and solve more and more of his own problems. But he usually needs adult guidance in varying degrees and of various kinds. Parents and teachers need to know how to help children at every stage of their development, in ways that will not interfere with their attainment of maturity. The amount of help and the kind of help needed will vary from one stage to another.

That's a modest enough task, one blacks must meet to save a valued institution and to demonstrate the commitment to preserve the institutional strength of the black community.
