Parks Plan Security Program

A park security program has been approved by the Las Vegas City Council which will provide

daily surveillance on a year-round basis for Las Vegas City parks. Four uniformed park rangers in mobile units will cover the eight major parks from 8 a.m. to midnight and also monitor recreation facilities to reduce vandalism and promote good public relations with park users.

"The park ranger program will help make the parks safer for the general public," said City Councilman Ron Lurie. "Having rangers in the parks and visible to the public will cut down on vandalism and destruction, which in turn will save the City thousands of dollars."

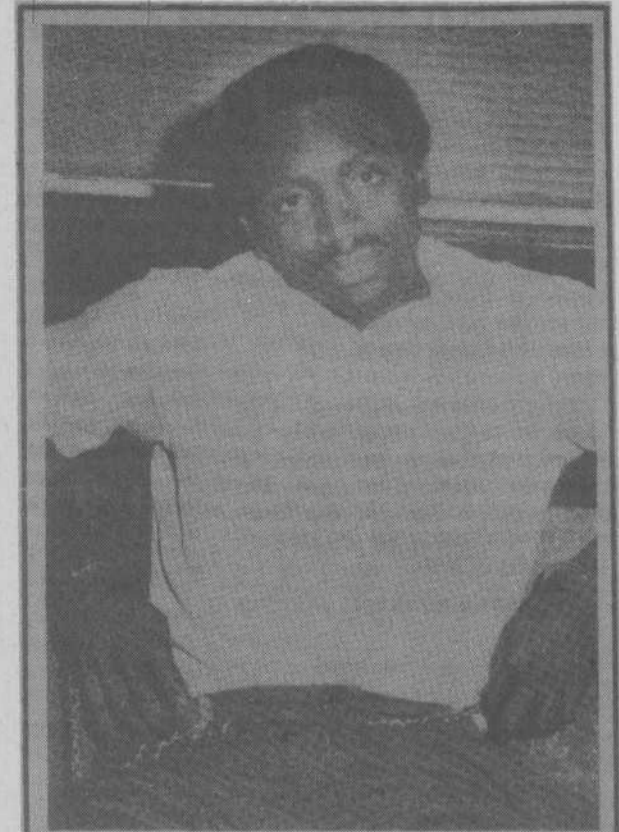

The park vandalism tab cost the City \$71,000 last year for repair,

MODEL OF THE YEAR GRAND FINALS SET FOR LAS VEGAS

NEW YORK — The Sahara Hotel in Las Vegas, Nevada, has been selected as the site for the Austin Sutton Model of the Year Grand Final, June 26-30, according to an announcement made by Austin Sutton President Vernon Johnson. During that week, close to forty contestants from across the United States, Canada, and the Caribbean will compete for the coveted Model of the Year title, and the opportunity to win over \$10,000 in cash, prizes, and awards, including an expense paid trip to Tokyo, Japan. The con-

testants competing in this event will have been selected from preliminary competitions held in eight regions throughout the country.

"The event promises to be one of the most exciting modeling and fashion experiences of the year," states Johnson.

"It not only will include the modeling competition but a full week of fashion and entertainment activities for the many guests who will be attending from throughout the country," he adds.

Proceeds from the many local activities planned will be donated to the New Dawn Technical Institute, a non-profit Las Vegas-based organization chartered to develop international trade interest in the Las Vegas area.

The Austin Sutton Model of the Year competition is the only major event of its kind for minority females, and is rapidly gaining worldwide attention for the opportunities it presents to "Women of Color."
