

JACKSON STREET AND ME...

By Rudi Jackson

With great joy ME turns attention and ask you to read and understand a few of the reasons we have and want to Honor: Reality House, 522 W. Washington, 648-7188 & 648-0663.

Tiffany's-12 Social Club has had the pleasure of working with two of the Directors of Reality House during our club's formation: 1) Louise Robinson who did such a wonderful job within the community and during the past few years our group has took the time to visit the center by way of gifts to the center, poetry readings, dancers, fashion revues, and just stopping by to say hello and talk to the persons who are finding care and love extended to the ones who have come to face the truths of the matters concerning their lives.

Oh, how time has seen a change in many lives due to the hard work being done by the now acting director: Arnelle Overton, who has worked at Reality House since 1980. She is a counselor and had been one until 1982 when she became Director. In California she was a social worker after attending University of California to earn a degree in Sociology.

Stress Management, Money Management, Supervision, Sexual Abuse and Program Management. Her goals toward helping any client are centered around dedication to program & principals geared at building up lifestyle & bringing about a change in the gravities which have come upon many persons in this time and day.

She expressed how "Spiritual aspects of A.A. & belief in God helped her most in carrying forth her duties and she is ready to talk with community groups on the subject of addiction. She is certified by The State of Nevada to serve as Counselor & Administrator.

Here are a few of her thoughts to the community: "You don't have to feel alone and without help in the circumstances you may be in due to alcohol or drug abuse. Don't feel that life has no answers to the things you have done, or, are doing with your life. There is a way out and things don't have to remain that way, or, that you must feel what you

have done has and will always remain that way. There is a way out for you. Many people in this country have stopped their destructive alcohol & drug use pattern and many just like you have said and worked to see that it will never be that way again.

"Rudi — please make this article an appeal to the people in our community to seek change in their lives or in the life of some one they know who needs to be helped and make changed in their life, or life is at stake in this time of woe and gloom!"

Remember The Sassy Fashion Revue will be on Aug. 18th, 9:30 p.m. Until ??? At Love's Cocktail

Lounge, 500 W. Jackson, donations \$3.00 per person (portions of the donations will be given to Reality House to keep up the good work here in our community). It is under the EOB Program here in the city

Hey, Yeah, a'fore ME forget Soul Joe nMiller presented ME with a nice donation the other day and ME wants to Thank Him and hope he and many others will be moved to come out and join in this most worthy honoring of Reality House and enjoy a star-filled nite with The Sassy Fashion Revue! Oh Yeah!

Soul Joe said: "Janice Hill, please be still at the Sassy Fashion Revue come Aug. 18th."

Zeke never met someone as cute as ME at Soul Joe's . . . lovely Karen Thompson, 19 yrs. old, a Sophomore at Grambling State University. Averaging 3.2 each semester. Her goals are to become successful in bizness management. Would like some day to own and manage a multi-million dollar cooperation . . . pending from A to Z.

Hey! What is a pres-ti-dig-i-ta-tion? Say what! Quick, ready fingers-slight of hand . . . (tee, hee, hee, hee). Some one who gets caught with they hand in the cookie jar looking for a few of them hand-out crumbs! WOW!
