CITY OF LAS VEGAS LIGHT INDUSTRY DEVELOPMENT PROJECT NEARS COMPLETION AT NUCLEUS PLAZA

City of Las Vegas LIGHT INDUSTRY DEVELOPMENT project, now nearing completion at the Nucleus Shopping Plaza, 932 W. Owens, will give an economic boost to the West Las Vegas community. The \$1.3 million construction job is said to be completed near the end of October 1984. Principally designed as an electronics facility to abate noise pollution, it is the hope of the developers that the facility will attract a defense related business. Currently several prospective tenants are looking at the possibilities within this development.
