

We is done been back to doing FASHION REVUES here in THE CIT-of-Glit-and-Glam . . .

JACKSON STREET AND ME . . . By Rudi Jackson

Welcome to Las Vegas Ron Jackson and Thanks a while for the Sassy Photos U B done took of The Sassy Fashion Revue Models in the pass few months since WE is done been back to doing Fashion Revues

here in The Cit-of-Glit-and-Glam . . . ME now hears tell of how U is done up and done/gone went and got yourself a new compact/concept in Video Production for Fashions - Music - Weddings and thangs & stuff . . . Well that is a alright and ME hopes you do your thang if that's what U wants to do.

ME has been told that U use to do local-shooting for Ebony Magazine up in New York City, Face Magazine in Los Angeles, California, Free-lance Lens-man

But back to you, Ron Jackson, ME has to say you do some real good and outstanding work wit a picture taking thing-a-ma-jig and may you keep up the good work in many more days to come for other information about Ron Jackson phone 796-1912 cause he is one heck of a good picture taking lensman and has got the Sassy Fashion Models off to a real good start in enjoying the art of having good photograph work done so as to enhance their presentation of self to others in the world of show-biz. Hats Off Ron Jackson for coming to Las Vegas and hitching on to the Stars of The Sassy Fashion Revue.

Another fine man ME wants to thank is Donald Ray Hearon who has took great pains in starting to work with the models towards Film Making and Video Filming last night (Saturday). The models & ME show'nif did ebb with the tides as we saw real good footage of professional filming took place with you and your wonderful camera-men who labored with us on each take of our Mini-Sassy Fashion Revue on Video . . . WE hope to see some real great things began to un-fold through the hard working efforts of Donald Ray and his staff of real dedicated people of Aslon Video Production Studio.

IT is so good to see Black men and women breaking the chains which have bound many for years to reach out and touch the garments of wisdom and progress and move ahead into new vistas and take others by the hand and start walking in unity

and togetherness. It is so long and overdue.

But take not of how the creepy-crawl is taking place to up-root the black faces and bodies up and off of the black folks community in a step/by/step take-over of one place after another by other national groups and putting black out of the mainstream.

When will the so-called black leaders start to setting good examples of trace-able works of really teaching their brothers and sisters how to care for self and their off-spring and stop giving of the Dump-Stuff way of letting old Jim and Jane make it the best way he or she can . . . The Black race has caught so much hell until it is time to redeem some real living in this earth and make a stand to not be running and re-locating at the wave of a hand or a push of a pencil.

Oh, Yes, Juanita, Gert, and Arlen, the Happy Birth-Day Party was one to be remembered by ME and so many other people who came out to enjoy a night at Love's Lounge. My/my, ME heard that another party wuz up at The Seven-Seas Lounge and ME seed R.D.1 doing the bump and grind up at the Desert Lounge and ME heard that folks wuz getting down at Chris' Lounge and ME felt it wuz tin-tin time to head for home and lounge and make redy for the Big Game Today which just may end it all.

ME loves that State-Plate-O-Tha Week . . . Jack-E who is always riding so smooth and up-town in fashions and looks . . .
