

Prominent Businessman Lee E. Walker Endorses Dave Phillips.

DAVID PHILLIPS for State Senate/District 4

1301 Gold Avenue, Las Vegas, Nevada 89106 (702) 648-3976

Dear Voter,

We would like to offer a few of the many reasons we believe you should help to elect David Phillips to the State Senate District 4.

At the age of 32, he is in the prime of life and a classical role model for our youths. He was born on welfare and reared in the Marble Manor public housing, but through his own drive and ambition, he was able to break the chains of poverty and rise to become a federal prosecutor in the U.S. Marine Corps, an *alternative municipal court judge* and *local attorney*.

Dave Phillips still resides in the community and has a strong law practice helping the underprivileged, with whom he is well acquainted.

If we are to encourage our youths to *seek the American dream* and *challenge the chains of poverty*, we must bring forth proper role models such as Phillips.

Dave Phillips was a member of the prestigious Charles E. Smith Law Firm in 1981, and a *federal prosecutor* from 1976 to 1980.

Dave Phillips worked in Washington D.C. for a former U.S. Senator from August 1975 to May 1978. He also worked as a political campaign manager-volunteer and voter registration director from 1974 to 1975.

Dave Phillips graduated from Howard University School of Law in May 1978, and UNLV in 1974 with a Bachelor of Arts degree in political science.

Dave Phillips and his wife, Jackie, have one son. We feel Phillips is exactly what this community has needed for so many years, but has been denied. This will be our only opportunity to elect a representative who will bring us into the 1980's as far as economic and social matters are concerned.

We the undersigned feel that Senator Neal has had ample opportunity to serve District 4. The only abilities we have seen him demonstrate was continual laughter and public outcry of every community crisis but he continually offers no substance or legislative solutions. (Seniority without substance is equal to absence.)
