## JACKSON STREET AND ME...

So many new faces and bodies got to view the Sassy Fashion Revue in a light that they never knew was here on the Westside of Las Vegas . . . Believe me there is so much talent that needs to be worked with to bring out the flavor or goodness of our beautiful young black people . . . May the force be with all who are in tune with the mighty forces who rule the universe!

ME met a man named MILTON ARRON and him told ME that he and some other men are the producers of Essence, Ltd. and they are presenting "Love Night" at LOVE'S COCKTAIL LOUNGE come Nov. 24 at 10 p.m.

Keep the Westside Alive by coming out and enjoying some of the good things for you to enjoy; don't let the system take it away by way of trick and trade . . .

Then there is the added goodness of seeing so many of the people of our community at The LAY ORGANIZATION OF F.A.M.E. Church come out and enjoy a night of "Putting On The Ritz" in the black community.

There is so much to be had and done by black people here in Vegas but for so long many are just sitting idle and letting time rob them and their children of the good life that is being enjoyed by the ones who have taken time to reach out and live in a whole-

some manner . . . One has to check out what is

is Darcus Speed. Speed is a female vocalist. She's been singing 'all her life' and her goal is to become 'a household name.' She also lists high on her list of goals a recording contract and 'opening act' status.

Darcus has been a lounge singer for over 10 years and has lived in Las Vegas for four years. The Kansas City, Missouri native is married to John Shipley and has a 4-month-old son Colin Gabriel.

Her favorite song is 'a nice strong ballad.'

OPENING THE BILL for Rich Little Nov. 29 in the beautiful Celebrity Room of the MGM Grand will be the singing sensation of the Pointer Sisters. The Pointer Sisters bring a level of excitement to any show that can easily wake up a Las Vegas visitor made weary by all that partying and gambling. As with many other singers before them, the Pointer Sisters first learned to sing in their church choir, in Oakland, California, where both their mother and father were ministers. In addition to the church, their singing influences included rhythm and blues, soul and even country. The Pointers first broke into the music business in San Francisco in 1969. Their first big single hit was "Yes I Can" and was followed by "Fire" and "He's So Shy." Their first "crossover" hit to appeal to both black and white audiences was "Slow Hand."
