Phone is link to lawmakers

Census representatives visit LV

Local representatives of the U.S. Census Bureau will visit selected area households beginning Feb. 1 to conduct its Survey of Income and Program Participation.

The project is an expanding survey that began in 1983 and is designed to show an accurate picture of economic conditions among American families. The bureau publishes periodic reports on information derived.

Information collected is confidential by law, and interviewers have credentials identifying them as Census Bureau employees.
