

JACKSON STREET AND ME . . . By Rudi Jackson

I was called on the telephone the other night and was invited to the rehearsal of LOU 'Mr. Originality' RAGLAND & G.L.O. because they were preparing for their opening night - April 8th, 9 pm thru 3 am in The Lounge Room of VEGAS WORLD. They were laying out some songs to please each and everyone who venture in to see them 'working it out' with sounds from the 50's, 60's, 70's and these... 'Staying Alive' 80's... Their act will be dark on Tuesday (off)... But I was

sure glad that I went to see them getting their show together for the up-coming hot weeks that are sweeping thru Las Vegas and this is only SPRING TIME IN THE DESERT FUN-LAND.

The musicians of the G.L.O. have grown from a Four Men Combo to a Seven Men Group which consists of: LOU RAGLAND-Vocals and Guitar; BRUCE ANDERSON-Vocals and Keyboards; MIKE SMITH-Drums; CLARENCE WITHERSPOON-Alto-sax; PAUL WISE-

Lou Ragland & G.L.O.

Vocals and Bass; TONY WELLS-Bells, Congo Drums and Tenor-SAX; ALLEN REIZNER on the drums. Stop by and see them as I did to see what they have been doing since MONDAY NITE.

Hi there, Joyce Carole! Hi there, Laura Buckley! Hi there, Fannie Gorman! Hi there, Patricia Baldwin!!! Will see you soon!...

Many will feel the loss of our great EDUCATOR- Dr. Thomas E. Wilson, Ph.D.- The Editorial Director of The Las Vegas

Sentinel-Voice and the writer of: Education is Power. Just let ME re-write his last weeks message in portion and may these

words remain with YOU as with ME as great words of wisdom from Thomas E. Wilson (quote) 'We must ask ourselves as Teachers, University Professors, Administrators, Parents, Etc., how can we best help all children become useful and successful members of society? We would do well to seek the answers to this question before the child is enrolled in elementary school... After all children deserve the best we can give them'... Dr.

Wilson... Rest In Peace from your hard labor and tasks here upon this earth among mankind! - mona-modi/85.

himself into 'a hole' as the top cop predicted... The best write piece about him is from Al Mujaddid who penned us: 'The real tragedy of the 'subway vigilante' saga, currently polarizing social views through the nation, is not the fact that four young men have bullet holes in them, or that a self-appointed champion of 'law and order' is no more than a would-be-mass-murderer. It is the insidious mind-manipulating practices of the news media that has potentially normal people babbling like idiots... That committee Gov. Cuomo named to in-

vestigate if the Green Haven Correctional Fac. was purchasing products from South Africa seems to be taking an awful long time to find one. We have a diced peaches label on hand if they're interested.

STARS IN YOUR EYES:- Hooray! The lovely and talented Debbie Allen seems headed for B'way. She's slated to star in 'Sweet Charity,' but, of course, for mucho cash... The way the critics dotted their 'eyes' and crossed their Ts about Eddie Murphy's performance, live, at the Music Hall could be a sign that he would do bucks better to stick to the big silver where he attracts much gold and fans who cannot talk back... Gregory Hines, the sweet tapster, did not have that problem doing a cafe turn in Buffalo. The snow had all melted and so had the critics. They loved him as he added singing to his already super tap dancing... A letter from the National Housewives League warmed the inner reaches of our heart. The org. is well and being productive as it heads into its 55th year of service in support of business. Magnolia R. Silmand, the newly elected prez, will preside over its July '85 meeting in Louisville. I am sure this will make the Louisville Defender happy. Thanks to Gertrude Rogers for the info. on one of this corner's favorite organizations... **STAY LOOSE...** Billy Rowe is a syndicated columnist.
