healthy tax deduction for the total price of one grand. The main event will be the gala evening of jazz in the modern Daniel Sorano Theatre in Dakar. Billy Taylor, renowned musician and director, is putting the final touches on a jazz lineup to uphold the tradition of JRF's annual jazz presentation. This time the event will be enhanced by a number of outstanding African artists to give it the sound of a new beat. May 13 is the deposit, \$200., deadline... Johnny Mathis is scheduled for another eye-level appearance on "Ryan's Hope." He initially appeared on the soap as himself the 2nd. Tue'day in April. green events, this corner is about to put together one for the National Newspaper Publishers' Association, "THE CHARLIE ARMSTRONG MEMORIAL GOLD TOURNAMENT." NEW YORK CITY — The Big Apple calendar of events is so jammed that every invite has us charged with electrical anticipation. That's an emotion which is not conducive to composing a column. Not only has the Motown crowd descended on the town for the 50th anniversary celebration of the Apollo Theatre, but so have the Nat'l Assoc. of Media Women, Inc., for their annual awards luncheon. Adding to the emotional good feeling is that they are bestowing an award on this old scribe to bolster a sagging ego for what they have encribed as his contribution to the enrichment of the Black Press. Thank you, ladies. However, it all has overflowed my emotions to

douse any fire of column thoughts. As usual in such cases it's Nancy to the write cue with some everyday basic facts. the write lady: Hooray for the Black radio stations that initiated a boycott against Warner Bros.' tallow talent because the record label had been giving them its back hand. As reported in this space several weeks ago, there has been a settlement, but no details were available. The label has promised to watch its Ps&Qs from now on and admitted it had not been paying these stations the proper amount of attention. A six member liaison committee, representing six regions of the nation, has been set up to monitor complaints between the stations and the wax works with hopes of establishing a dialogue throughout the entire recording industry, since these tensions involve other labels as well. This upset is due to the all-market acceptance of

Afro-American recording artists that had their beginnings in Black radio, but once successful, the artists and record labels are looked to cut the cord and devote time and money to pop beams only, to say nothing of the ofay jocks. Thanks go to L.A. radio station KACE who started the action and standup airwave supporters KJLH, KGFJ, KDAY, KUTE of L.A., WB-MH, Chig., WDTA, Memphis, WBLS, N.Y., and KSOL, San Fran. They added muscle to the boycott. The Black Press should follow suit, as the companies do nothing, nor spend any ad dollars, within the Black Press, but send reams and reams of publicity releases for printing. They even have big parties in cities and don't invite you, while the companies and artists rake in the money.
