YOUR CHILD'S EDUCATION

Have you ever been asked your opinion about your child's education?

As a member of the Clark County School Board the education of students is a major concern and in order for me as a board member to communicate your concerns your opinion is needed. An educational questionnaire has been prepared and will be mailed to 1500 parents in District "C". Due to a difference of opinion between members of the Clark County School Board the mailing of the questionnaire was temporarily delayed.

A few of the questions were:

I feel the school district is providing my child(ren) with a good education;

The school district should implement an after-school tutorial program;

There should be more black role models — teachers, counselors, and administrators — in my child's school;

The school my child(ren) attend(s) is well maintained; and

The principal of my child's school is willing to attend to my child's educational needs.

These are just a few of the questions listed on the questionnaire for your response. The results of the survey were scheduled to be available at an educational Town Hall meeting on August 25, 1985 at The Nucleus Plaza, 932 West Owens.

In addition, Clark County School District staff would be made available for questions presented by parents. Please plan to attend and help make us the Clark County School District more responsible to our community's needs.
