**Now Is Time To Immunize  
Children For School**

Children who haven't been completely immunized against childhood disease are at risk of contracting the seven serious, and sometimes deadly diseases — measles, German measles, polio, mumps, diphtheria, whooping cough and tetanus. Clark County Health District officials report that with the exception of tetanus, these diseases are highly contagious and spread rapidly.

To protect Nevada children and reduce outbreaks of these diseases, Nevada law

requires that children be up-to-date on their immunizations before entering school.

If you haven't checked your child's immunization record lately, now is the perfect time to compare your record to this schedule provided by the Clark County Health District.

**Assistance League Receives Award  
For Aid To Needy School Children**

The Assistance League of Las Vegas has been bestowed the national Concern for Kids in the Community group service award which is co-sponsored by the General Federation of Women's Clubs (GFWC) and Health-tex, a division of Chesebrough-Pond's Inc. The award was given in recognition of the league's Operation School Bell which provides new and nearly-new clothing for needy school children.

Assistance League volunteers spend hundreds of hours collecting new or nearly-new clothes, making minor repairs, and setting up shop for Operation School Bell, which is housed

centrally at J.D. Smith Junior High School. It is open to students two mornings a week during the nine-month school year so that the volunteer clerks can help 30 or more students at a time.

It's managed similar to a department store with one notable exception — needy youngsters pay nothing for the clothing they get from School Bell.

Last year more than 1,100 Clark County students got a new pair of jeans or slacks, a new shirt or blouse, a new jacket, and two new pair of socks and undergarments. In addition, they each received a personal care kit which contained soap, a toothbrush, toothpaste,

**Birth Certificates Needed For  
School Registration**

Mid-summer is the best time for parents of kindergarteners to pick up copies of birth certificates for school registration. According to Wanda Turpin, Vital Records assistant

deputy registrar, those who get copies now will avoid a wait in line next month.

Birth records of children born in Clark County are available at the Vital Records office of the Clark County Health District, 625 Shadow Lane, Las Vegas. The office is open 8 a.m. to 4:15 p.m., Monday through Friday. Over the counter copies for school registration, sports activities, social security information, driver's licenses, job permits, security clearances and passports are available for \$6 each.

A wallet-size birth registration card is also available at the office. The card is a convenient record of birth information and can also serve as a child identification card or an emergency medical card. Birth registration cards are \$5 for a set of two. Cards can be laminated at the Vital Records office for \$1 per card.

Parents who want to purchase birth registration cards for child identification should bring a picture of the child to the Vital Records office. The picture will be attached to the card prior to lamination.

Copies of both birth and death certificates are available at Vital Records, or may be ordered by mail. For copies by mail write: Vital Records, Clark County Health District, P.O. Box 4426, Las Vegas, NV 89127. Remember to enclose the certificate fee.

Questions about birth or death certificates should be directed to Wanda Turpin, 383-1223.
