Employer Benefits From Training Program

The Nevada Treatment Center is a Las Vegas employer that has taken advantage of opportunities available under the Job Training Partnership Act. The Nevada Treatment Center has filled its need for qualified employees by working with the Southern Nevada Employment and Training Program. By using Southern Nevada Employment and Training Program's On-the-Job Training Program, The Nevada Treatment Center was able to increase its staff. The DETOX Program could not be staffed adequately due to budgetary constraints, the OJT program allowed the Nevada Treatment Center to add two badly needed DETOX aides to assist with ever increasing client loads. This relieved some of the pressure on staff members who were overloaded due to the lack of additional assistance.

The OJT program also assisted the Nevada Treatment Center with four employees needed in the administrative area. This added another dimension to the realm of job training as highly marketable skills such as bookkeeping and computer operation skills
