Alex Haley  
Journalist and Author

### A Special Message from Alex Haley for minorities about careers in journalism

My career as a journalist began in my spare time with lots of desire and no formal training. Minority news professionals were scarce then and getting into the news business was tough.

Things have changed some, but not enough. There are still far too few members of racial minorities pursuing news careers or being given a chance to do so.

If you have talent as a writer, cartoonist, graphic artist or photographer and you're interested in a career in the news business call this number toll free: 1 (800) 331-1750. Ask for Operator 128. In Nebraska call 1 (800) 343-4300. You'll get free information from the Society of Professional Journalists. Remember, journalism needs minorities, and minorities need journalism.

## Senior Systems Analyst/ Programmer

Systems Analyst Programmer  
Positions Available Immediately

Reynolds Electrical and Engineering Co. Inc., one of Nevada's largest employers, provides support services to the Dept. of Energy. We invite you to explore our available positions as opportunities for professional growth with excellent compensation and a very liberal benefits package. The work locations are Mercury, Tonopah, and Las Vegas.

### Systems Analyst Programmer:

These positions require a Bachelor's Degree in Business Administration, Mathematics, Engineering, Computer Science, or related fields. Must have 2 or more years experience of applicable systems analysis and programming experience including COBOL and/or FORTRAN programming on timesharing systems. IBM or DEC experience preferred. Must be able to communicate effectively with business and engineering people and have a solid foundation in structured methods of design and programming.

### Systems Analyst/Programmer & Senior Analyst Programmer:

In all of these positions, you would work with the Technical Support Group of a data center. Requirements include at least 2-5 years experience in consulting with data center users, including computer system operations personnel and senior level Systems Analyst/Programmers who design and develop business and technical applications in a VAX/VMS computer environment. Experience should include in-depth knowledge of the VMS operating system, layered product set, third party devices, and an understanding of VAX cluster configuration and control.
