# Sears is...

A revolutionary new radial tire. The RoadHandler Tredloc® Tire.

Sears RoadHandler Tredloc Radial is one of the most durable passenger car tires you can buy. The secret to its durability is its remarkable strength. The tire's inner belt is woven of DuPont's Kevlar® aramid, which is as strong as a steel belt, yet weighs less. Its unique belt design helps eliminate the cut-belt edge, the weakest area in conventional tires. And an interlocking tread pattern helps your car grip the road in almost any kind of weather. The result is a 70 series performance tire that is "T" speed-rated, and withstands wear from high speeds better than standard tires. So put one of the best handling, smoothest riding radials you can find on your car. The RoadHandler Tredloc Radial... only at Sears.
