

## Benefit To Be Held For Deacon Lee Morris Green

Deacon Lee Morris Green

A benefit program will be held for Deacon Lee Morris Green at 7:00 p.m. on Saturday, Oct. 3 at the Greater New Jerusalem Baptist Church, located at 1100 North "D" Street. Deacon Green has been informed by his physicians that he is in need of a heart transplant.

The program will feature Hazes Jones Williams and the Jones Sisters, with Saxophonist Michael Hawkins and other artists.

The members of the Greater New Jerusalem Baptist Church request that the public attend this fine program to support this worthy cause. They thank all for their support and prayers for Deacon Green.

In addition to the program, a trust fund has been established for Deacon Green at the Valley Bank, where all donations can be made at any Valley Bank branch. The account number is: 022463772.

Deacon Green had been an employee for Silver State Disposal for 27 years before his illness disabled him.

For additional information, please contact Rev. James Rogers, pastor of the Greater New Jerusalem Baptist Church at 399-3434 or 648-8438; Sister Dorothy Coleman, Program Coordinator at 438-0918; or Sister Barbara Drew at 649-4393.

tions. If possible this curtsy would be longer and lower should he instruct his publishing staff to capitalize the word Black as in their terms the word is used racially and not the adjective describing color. Of course it would even be better should we now start to address our proper race, African American, since we are the only Americans whose racial designation is not governed by the nation where their roots were planted. It's degrading enough that the other publications refuse to dignify our self racial "elevation" from Negro, Spanish for

black, to colored to black, which is nothing more than American for Negro . . . There should be no debate about the status of South Afrikaners participating in amateur or professional competitions in America. As long as any American is denied reciprocal participation in that apart'HATE land Afrikaners MUST be kept out of every sports arena in this land of the eligibility of the FREE. A more visible campaign needs to be mounted to insure that unscalable barriers are erected, particularly along golf's green acres and the tennis courts where the word "love" is a term for the defeated, to keep

### From Page 8

Billions of dollars are being spent to contrive ways to keep you looking up and out at someone or something else; and to keep you hooked on drugs and other people's fantasies . . . to create magical lies, and fictitious heroes for you to adore, as they subliminally teach you to hate members of your own family, and to hate yourself! High, dizzy and dumbfounded, you merrily squirm in their deadly mental trap . . . while your marvelous brain power lies dormant and rusts, and your creative energies turn into dust!

Step out from among the narcotized, obsequiously gullible crowd; discover your individuality and look to your innermost self. I can assure you that there's where you'll find your great, dynamic leader; and your most celebrated hero.

**CHECK IT OUT**, young people . . . the cocaine "crack" epidemic, as well as the widespread use of other deadly chemicals, was no accident! Millions of dollars are being spent to "research" the use of cocaine "crack" and other drugs, which simply means they're paying people to watch you get high and die, compile statistics . . . then, give an "expert" reason why!

Those millions of dollars should be spent in an effort to keep drugs out of this country; but, obviously, under the guise of drug prevention lurks deadly "drug intentions"!

The war on drugs means to shoot out verbal platitudes; talk, talk, talk . . . they loquaciously articulate percentages of drugs that have been confiscated and make predictions about the estimated percentage of future drug seizure, while misdirected resources are being used to fill a few thimbles with an ineffectual solution for dousing the ubiquitous raging "fire of drugs"!

Various excuses are given, among the powers that be, as to why an alliance to totally eradicate drugs is impossible; as they reciprocate in pointing a hypocritical finger at each other's corruption.

The drugs are putting on the actual war; and as the them out. THE OPPORTUNITY THAT GOD SENDS DOES NOT WAKE UP THOSE WHO ARE ASLEEP, Senegalese proverb . . . Stay Loose. Billy Rowe is a syndicated columnist.

physical and psychological destruction mounts, the silent killer continues to give them more fatality statistics to quote!

Prominent entertainers (including actors and actresses) and athletes who are involved with drugs, have irresponsibly and systematically been lured into abusing themselves with drugs; they are merely pawns who are being (or have been) manipulated by a greater influence, which pushes them into drugs and eventually to death . . . knowing that young admirers who live their lives vicariously through the outstanding role models will, sooner or later, sympathetically follow their suicidal course of action!

I am one of the few and fortunate living witnesses who overdosed on cocaine, and also on a mixture of cocaine and heroin several times; and was revived. After each near-death episode, I foolishly continued to use the deadly narcotics, as mentioned in my autobiographical narrative. I too fell into the enemy's trap of drugs and

alcohol as a child, and subsisted under the stupefying effect of those substances for many years, until I miraculously withdrew, learned to love myself, and consequently abstained!

The real answer to the deliberate human catastrophe of drug and alcohol addiction lies in individual awareness, total abstinence, and the inner birth of high self-esteem and love!

When you learn to love yourself, you will no longer want to harm yourself; and no matter how many poisonous substances your enemies make readily available to you, the power of your love for yourself will automatically cause you to say no to their deadly chemicals!

I witnessed many friends and acquaintances draw the curtains on their young lives (as I attempted to do) as a result of drug overdoses. I'm just one of those "fools" who miraculously survived to tell you . . . "Don't be a fool, drugs ain't kool!"
