

FBI Thwarts Plot Against Jesse Jackson

Associated Press

ST. LOUIS — A Missouri husband and wife are in jail on charges of conspiring to kill or harm Democratic presidential candidate Jesse Jackson, the U.S. attorney's office said.

Federal agents quoted Londell Williams, 30, of Washington, Mo., as saying Jackson was "getting too close to being president of the United States." Williams was also quoted as saying he was a member of several white supremacist groups.

His wife, Tammy, 26, was quoted as saying they had planned to kill Jackson and that he would be shot on June 21 or July 4.

The couple, arrested Friday, are being held without bond, said Jay Foushee of the Secret Service's St. Louis office. Foushee said the threats were made recently and that an informer had tipped off the FBI about the alleged assassination plot. After several days surveillance, the FBI arrested the couple. Seized also was a shot gun, which the couple allegedly planned to use to shoot Jackson.

Jackson, who expressed shock at the plot, thanked the FBI for doing such an excellent job. He said that the world was made up of dreamers, dream makers and dream busters, and that this time two dream busters had gotten caught. He vowed that his campaign would go on and that the people would prevail.

Congressman Vucanovich sponsors Bill

Citing "hardships brought about by the so-called Tax Reform Bill," Congressman Vucanovich has sponsored legislation in the House of Representatives to allow payment of owed tax in three payments, one third on April 15th, one third on June 15th, and the final payment on August 15th.

"Honest people who believed they were withholding the right amount of tax were hit with large sums of additional tax to pay on April 15th," she said. "At least these people should have payments staggered over several months to avoid serious financial hardship."

Congressman Vucanovich said that she had not voted code. "This bill is neither more simple nor more fair, and has resulted in tremendous frustration," she said.

New Schools with NO Tax Increase

Currently, Clark County Schools are severely overcrowded with more and more students entering the school system each year. In order to meet the growing need for more classrooms, the Clark County School Board has authorized the issuance of \$600 million worth of general obligation bonds.

These funds will be used solely for the purpose of constructing new schools, refurbishing existing facilities and other capital improvement projects.

There are many reasons for supporting this effort.

1 NO TAX INCREASE

Because of the "retirement" of existing debts, this bond proposal will create no additional tax burden on Clark County residents. Therefore, the county tax rate will remain at its current level or may even decrease.

3 NEED

It's been over 14 years since a new high school was constructed and the demand continues to grow. Severe overcrowding is a reality in many of our schools.

No longer is it a discussion of what we want, it's now a matter of need.

2 ECONOMIC DEVELOPMENT

One of the primary concerns of businesses thinking of locating in Clark County is the quality of our schools. To bring new business to our community we must have adequate facilities to meet the needs of our students.

4 OUR CHILDREN

Our most basic obligations and responsibilities are to our children. If we fail to meet the educational needs of our children, we fail in providing for their future...and ours.
