

Now you can get something you've always wanted in a performance car. Your family.

Call 1-800-NISSAN-6 for more information. *M.S.R.P. excluding taxes, title, license, destination charges and options. Optional equipment shown.

What's the last thing you expect when you press down on the accelerator in a typical mid-size sedan?

Acceleration.

But perform that simple act in the all-new Nissan® Stanza® and you're in for a mind-altering experience.

Because along with the things that make the Stanza such a great family car—comfort, reliability, economy and practicality, to name only four—you get all the best parts a very impressive

performance car has to offer.

The major one being the Stanza's 24-liter, one hundred and thirty-eight horsepower, multi-valve, sequentially fuel-injected engine.

Not only is it the most powerful standard engine in its class, but it's got more muscle than most of our competitors' optional engines. More than enough to pass a double trailer rig. On a hill. In a headwind.

Of course, there's a lot more to

performance than going fast.

So naturally, there's a lot more to the Stanza.

Anti-lock brakes, for example. Available on the GXE model, they deliver straight, controlled stops on wet or icy roads.

Our exclusive Advanced Traction Control™, standard on the GXE, provides optimum traction to the drive wheels on unstable surfaces like ice, dirt and gravel.

On more normal surfaces, few sedans can offer the stability and handling response of the Stanza, thanks

to 4-wheel independent suspension and both front and rear stabilizer bars as standard equipment.

Sit in the driver's seat and you'll find an instrument panel that satisfies ergonomic as well as aesthetic needs. Easy to read, easy to use and definitely easy to look at.

You'll also find that, as a carrier of families and their stuff, the Stanza performs beautifully. It has a generous 90.7 cu. ft. of space in the passenger compartment. Plus a grocery-bag gobbling 14 cu. ft. of trunk space.

There really isn't much more you could ask for in a mid-size sedan. Except for this one, last, very impressive feature.

The price.

Built for the Human Race®

The New Stanza. \$11,450.*
