

UNLV Office of Minority Student Affairs Announces Self Esteem and Development Workshops

The University of Nevada, Las Vegas Office of Minority Student Affairs announces the first of ten (10) Self Esteem & Career Development workshops to be held in the Moyer Student Union Lounge 203 on Sunday, October 7, 1990 at 5:00 p.m. to 7:00 p.m., sponsored by American Bank for Commerce, featuring Ms. Deborah D. Wicker, motivational speaker. Her topic will be "Strategies for Developing a Positive Self Esteem."

Ms. Wicker is the President of Information Processing Systems and has lived in Las Vegas since 1968. Ms. Wicker is working on her doctorate degree in Computer Education at Nova University in Fort Lauderdale, Florida. She has her Master degree in Educational Administration and Higher Education and her Bachelor of Science degree in Special Education receiving both degrees from UNLV. Deborah has achieved a Certificate of Completion of the Clark County School District Professional Development Course for the Southwestern Self Esteem Conference.

Ms. Wicker has conducted workshops and seminars promoting Self Esteem and Career Development at the Afro-American Summit, the Clark County Community College Re-Entry Women's Program and for individuals and families. She has also published two books titled: "Career Development and Self Esteem Guide for Success" and "Career Development Self Esteem Workbook." Deborah has also published an article titled "Critical Thinking Skills" in the yellow pages publication for Special Education Volume X, Number 2 November-December-January 1986 for the Clark County School District.

"As a graduate of UNLV, I feel I can be a valuable asset to the Minority Student Affairs office in sharing my experiences and successes in being on the Dean's list for academic excellence in my undergraduate course work and in my graduate course work to the minority students enrolled at UNLV," Ms. Wicker stated. Ms. Wicker also said, "The purpose of the workshops is to develop skills for minority men

and women to become competitive in the work force and in technology. We are currently entering the information processing era which requires men and women to excel in developing effective communication skills, goal setting skills, problem solving skills, assertive skills and a positive self esteem."

"I am very pleased that we were able to attract a former graduate of UNLV to come back and conduct these workshops and I hope all UNLV students will come out and participate in the workshops," said Wayne Nunnely, Director of Minority Student Affairs.

There is no charge to UNLV students. For more information call 597-4165.
