Eugene used to sleep with his gun in one hand and his Bible in the other, his life was a paradox. He preached against Christ as a Muslim Minister before crowds of thousands. At the same time he also served as a Chaplain for the Department of Corrections State Board. Before he became involved in these ministries, he served three prison terms and was on arraignment for a fourth. He will also be describing his 22 year drug habit and the life of crime to support it.

Eugene is now the Pastor of "Set Free Christian Fellowship." This Fellowship is located in the "Naked City" area in Las Vegas. Come and share God's love and mercy through Eugene's testimony.

SHANNON REEVES NAMED TO HEAD THE NAACP'S WEST COAST OFFICE

Shannon F. Reeves has been appointed Director of the NAACP's West Coast Region I, effective February 3, 1992, Dr. Benjamin L. Hooks, the Association's Executive Director/CEO has announced.

Mr. Reeves, a graduate of Grambling State University, has served the NAACP in a number of capacities including membership of the National Board of Directors and Northern Area Youth President. At 23, Mr. Reeves is the youngest Regional Director ever appointed in the 83-year history of the NAACP.

"My appointment as Regional Director attests to the positive training provided through my involvement with the NAACP. I came

SHIRLEY CAESAR HAS THE #1 GOSPEL ALBUM IN THE COUNTRY FOR FOURTH CONSECUTIVE WEEK

PARAMUS, NJ — When Shirley Caesar's current album, HE'S WORKING IT OUT FOR YOU, was released, it was just a matter of time before the celebration of it reaching the #1 spot on the Gospel chart would begin. Following the success of her 1988 album LIVE IN CHICAGO, which made history by remaining in the #1 chart

position for 50 weeks, HE'S WORKING IT OUT FOR YOU is definitely on its way.

It was just 13 week ago that the Queen of Gospel's latest recording started receiving major radio airplay and making it's way up the charts. Additionally, Ms. Caesar has appeared on a record number of national television shows such as the "Arsenio

up through the Youth Council and the ACT-SO Program to become a state youth president and a national board member, and now I hold a major position," he said.

While at Grambling State, Mr. Reeves activated the college's NAACP chapter and served as president. He also ran for Mayor of Grambling, Louisiana, losing by only 20 votes.

In addition to his work with the NAACP, Mr. Reeves has held a number of other positions including Ombudsman and Special Assistant to the President of Grambling and Field Representative and special assistant to Rev. Jesse Jackson during his 1988 presidential bid. He also worked as a Field Representative in William Sumlin's campaign for a seat in the Louisiana House of Representatives in 1987. Mr. Reeves also worked as a summer intern in the Office of the Mayor of Oakland, California in 1985.

He belongs to a number of organizations including the Black American Political Association of California, Omega Psi Phi Fraternity Inc. and Optimist International.

It's a small price to stay cool.

Why the cost of air conditioning is going up from \$1.35 per day to \$1.49

We recently applied for a rate increase with the Nevada Public Service Commission for \$38 million. It's a lot of money. But as an average consumer your monthly power bill increase will only be around \$6.42.

In other words, if your air-conditioner cost \$1.35 to operate per day in the past, it will now cost about 14¢ more.

Why Power Rates Are Going Up

- No one likes rising costs, but let's take a look at why rates are increasing:
- Southern Nevada is growing at an average of 5% a year—far above the national average.
- Nevada Power provided service for an additional 20,000 customers last year.
- To provide power for the thousands of new

residents, Nevada Power added over 500 miles of distribution and transmission lines.

- Major upgrades were made in Henderson/ Green Valley, Downtown Las Vegas and the Lakes to improve reliability for our existing customers.

What We're Doing To Keep Costs Down

We're also doing all we can to keep the cost of electricity in check. Here are just two of the ways:

- Our energy services department offers many conservation programs to help you lower your monthly bills.
- Our request for a general rate increase is accompanied by a second request, which if approved by the Public Service Commission would actually decrease the energy charge amount on your monthly bill. We're able to reduce this cost to you because our costs for fuel and purchased power have declined.

We all take electricity for granted...until the bills come.

Nevada Power is working to keep costs as low as possible. We've taken stringent measures to slash budgets and cut costs as much as we could while maintaining quality service to you. We'll continue these policies in the future, but it doesn't change the fact that growth is continuing.
