

STATEWIDE UNEMPLOYMENT RATE DIPS

CARSON CITY—Nevada's statewide seasonally adjusted unemployment dipped 0.5 percentage points in April to 6.0 percent, — the lowest level of the year. Nevada Employment Security Department's (NESD) Executive Director Stan Jones called Nevada's decrease in unemployment a mirror of the moderate economic recovery trend nationwide.

Jones said, "An over-the-year increase of 15,700 jobs statewide, with 63 percent of that job growth in Clark County, shores up Nevada's economic recovery." He pointed out, "construction and the service industries continue to lead the state out of the economic morass of 1990-

91."

Employment estimates in service industries, including gaming and recreation show an increase of 7,300 jobs over-the-year, while the construction industry showed its current strength totaling 41,100 jobs, 1,000 more jobs reported in the industry than a year ago.

He said the U.S. Bureau of Labor Statistics reported the nation's seasonally adjusted civilian unemployment rate for April was 7.2 percent. And, neighboring California's seasonally adjusted unemployment rate was estimated at 8.0 percent.

The department's monthly survey show that unemployment throughout the state's 17 coun-

ties ranged from a low of 2.7 percent in Eureka County to a high of 10.3 percent in Esmeralda County due to layoffs at the Homestead Mine. During April, Las Vegas (Clark County) was estimated at 6.0 percent unemployment, down 0.7 percentage points over-the-month and 0.3 percentage points higher than a year ago.

Reno's (Washoe County) April jobless rate was estimated at 5.7 percent unemployment, down 0.4 percentage points during the 30-day period. In April 1991, Reno's unemployment rate was 5.1 percent.

According to the department's labor economists, retail and wholesale employers (in-

cluding general merchandise, apparel, food stores, auto dealers, service stations, eating and drinking establishments) accounted for an estimated

129,200 jobs, an increase of 3,400 jobs when compared to the same time a year ago. The mining industry employed a reported 13,300 workers during

April — 100 fewer workers than April a year ago. And, employment in manufacturing picked up 100 jobs since April 1991, with 25,900 workers reported.

Participants will be able to receive continuing education credit for attending these sessions.

The ANA Convention Exhibition is one of the largest displays of health care products in the industry and will showcase prod-

ucts and services from more than 450 suppliers. Products and services will be discussed and demonstrated during "Product Awareness Night," sponsored by various companies. In addition, a computer demonstration theater will feature the newest generation of computer products in health care.

The association's 615-member House of Delegates, ANA's highest policy-making body, will meet throughout the course of

the convention to receive reports and consider proposals relevant to the future of nursing. This year, the ANA House of Delegates also will elect officials for 25 leadership positions including the president, first and second vice presidents, secretary, treasurer and the board of directors.

Registered nurses interested in attending the 1992 ANA Convention should call 1-800-274-4ANA.
