Maintaining a Liberal Arts Leadership Approach

KEITH O. HILTON

HILTON: HIGHER EDUCATION continues to be an African centered and international column written primarily for college and world readers, regardless of direct academic participation.

In fact, a large number of our readers say they read the column for cultural, as well as for academic purposes.

Like a solid liberal arts program, we believe that if people

read and learn as much as possible, especially in these categories, they will enhance their positions as leaders.

We will always strive to be timely, educational and informative. The following are examples of some of our past columns.

If you would like to receive copies of these columns, please send one dollar, your comments and a SAE to: HILTON: HIGHER EDUCATION, 3139 N. Garey

Avenue, #101, Pomona, CA 91767.
