THE FIRST STEP, DON'T FORGET THE HELMET!!

By Edward M. Bernstein

The motorcycle helmet law in Nevada was initiated to protect motorcyclists and their passengers, but many people don't think about putting on a bicycle helmet before getting on a bike. Although bicycling is an enjoyable form of transportation, accidents can happen. A bicycle helmet is an easy and effective means of protection against the most serious types of injuries: head and brain injuries.

The Bicycle Federation of America in Washington, D.C. advises consumers to look for a sticker in the inside of the helmet which indicates that the helmet has met either the ANSI Z90.4 (American National Standards

Institute) or the SNELL Memorial Foundation performance standards. This means the helmets have passed impact performance tests.

The federation suggests the helmet fits securely, with the

MINORITY ENTERPRISE DEVELOPMENT WEEK

Minority Enterprise Development Week (MEDWEEK) is a national observance proclaimed by the President to recognize the importance of minority businesses and to honor those businesses who have excelled in their respective fields. There are two programs in our region:

Sacramento: The Sacramento 8th Annual MED Conference will be held at the Radisson

Hotel in Sacramento California, on October 7, 1992. This year's conference will be devoted to helping your business expand and grow. There will be informative workshops on topics such as marketing, joint ventures, environmental issues, and assistance programs. There will be exhibitors from military facilities, Federal agencies, governmental agencies, private corpo-

TRAVEL with Bates

By Sandi Bates

Los Angeles is one of the country's largest ports and cruising of all kinds is a favorite local pastime.

Norwegian Cruise Line invites you to a 3-day Week end "GET AWAY CRUISE" to Catalina Island and Ensenada, Mexico. The impressive cosmopolitan Southward ship is always for excitement.

Dining on Norwegian Cruise Line is always great, in fact, its everything from formal dining to casual burgers on deck. The ship has a fitness center, jogging track and aerobics classes. There is late night dancing in the night club or Clipper Lounge. Shopping on the ship is fun, a place to buy jewelry, perfume or a new swimming suit. The best place to let off steam—the sauna. The best place to cut a deal, the blackjack table in the ships casino.

Cruising Southward you will discover exciting Catalina Island, 26 miles from the coast of Southern California. Catalina is a sun drenched island, beckoning visitors with its sandy beaches, beautiful views and rich variety of wild life.

Now is a good time to experience one of the most romantic cities to be found anywhere in the West. The climate is milder than that of mainland Southern California. It rarely reaches above the mid-seventies in the summer. You can count on sunny days in winter, with temperature seldom below 50 degrees.

During the day, hike natural trails far removed from the noise and congestion of city life. Savor a gourmet meal in the evening and dance the night away at the world-renowned Casino Ballroom overlooking Avalon Bay, another popular night spot.

Although you could spend a month on Catalina doing something different everyday, its fun to visit the island for a day or weekend.

Nature lovers, sun bathers, historybuffs, and pleasure seekers of all varieties feel at home here. Water sports, sightseeing, fishing, golf or tennis can keep you active all day.

Catalina's 42,000 acre interior is a nature preserve. Deer, buffalo and island fox roam free. Whether you experience the interior by hiking well marked trails, camping in immaculate campgrounds, bicycling challenging mountain roads, or in the comfort of a guided motor tour, this is a facet of Catalina you won't want to miss.

Sight see the crystal clear water surrounding Catalina Island, a store house of underwater treasures. You can see world famous octopus, sea lions, barracuda, moray eel, bat rays and spring lobster to name just a few. Explore kelp forest, underwater caves, rock pinnacles and wrecks through the miracle of scuba.

Mexico is a quick jaunt from Southern California. In cruising to Ensenada you can sample

MEASURE HELPS BUSINESSES AFFORD HEALTH COVERAGE

BRYAN BACKED SMALL BUSINESS HEALTH BILL ATTACHED TO URBAN AID PACKAGE

Washington, D.C.—The full Senate approved by voice vote recently a provision cosponsored by United States Senator Richard Bryan (D-Nevada) which

would help small businesses afford health care coverage for their employees.

"Small businesses that want to provide quality health care for

their employees should not be penalized by the tax code," Bryan said. "This amendment will provide small businesses the same tax consideration as large corporations which provide health care insurance. With costs for quality health care insurance going through the roof, we need to do what we can to help."

Senator Lloyd Bentsen (D-Texas), the Chairman of the Senate Finance Committee, successfully attached the health care legislation he authored to

It's so easy a child could do it.

There are over 11,000 miles of underground utilities in Southern Nevada. It's dangerous and costly to dig into them. One call will make sure you don't. Because with one call the companies listed below will come out and mark your site with color coded lines that let you see where the lines are buried. It's simple. It's free. In fact, it's child's play.
