# ELECTION AFTERTHOUGHTS

By James S. Tate, Jr., M.D.

As I write this weeks column, we are in the final hours of the so called elections process here in the United States. This is where we decide which criminal is best suited to act as the titular head of State. For those who truly control the country (the 89 families that control 92% of the wealth in the United States), it appears at this point that Governor Clinton will be the President for the next four years.

I tend to think that with the way the economic climate is, there will probably not be any two term Presidents for some time to come, but be that as it

may, we will probably be stuck with Governor Clinton. At any rate, it will be to some extent an end to one of the most vicious neo-fascist regimes that has ever ruled this country, the Reagan - Mr. Bush era.

It will signal, hopefully, an end to the mentality that Mr. Reagan and Bush so fervently fostered, which is, hey, racism is okay, racism is good. It will hopefully usher in at least a period that will say: I am a racist but it is not cool to let anybody know about it.

It was said often of Jimmy Carter, that the reason he lost the election to Reagan was that

he did too much for black folks. I am, for the life of me, still trying to find our what Jimmy Carter did for anybody other than Jimmy Carter. That belief does bring to mind the fallacy of which so many non-black people operate. It is a self-destructive suicidal mentality that says: I will do anything I can, including destroying myself, if it means I will make black people suffer a little bit more. Clearly, the election of Reagan and Bush, while it hurt blacks, hurt whites, much, much more, since whites had much more to

lose, and subsequently lost it. The issue here is that when you have an administration or an individual who attempts to lead or direct a nation based on stopping somebody else, it is basically a dead end situation.

For, in their deal to stop one, they invariably stop everyone from progressing, and indeed in the case of the Republican Administration, stopping blacks was merely a smoke screen for their real purpose, which was to take the whole Country back to the days of the wild, wild west; when

you were lucky to have a job and you better not say anything to the man or you will be fired, and maybe even killed. This Country, may or may not, grow out of that infantile disorder. It may, at some point, in its future, graduate to understanding how the best interests of all the people are served when and only when, the people who are at the lowest end of the economic ladder begin to move up.

In the interim, anyone who is wavering between brand X or brand Y, and trying to decide

who gave the most to black folks, be advised, that nobody, no national leader in the entire history of this nation, has ever GIVEN anything to black folks. Everything blacks, native Americans, Hispanics and poor whites, have ever gotten, they have struggled for, died for, bled for and sacrificed for. We knew the expression that "There is no free lunch", a long time before it became the "in" yuppie expression. Don't forget to vote!

La lucha continua!  
The struggle continues!

## THE WESTSIDE STORY

# WHAT ABOUT ROBIN HOOD?

By R.K. Brown

In Nevada, blacks go to prison at rates 6 times higher, than their white counterparts. Blacks only make up 6.6% of the population, but they are 31.3% of the prison population. Nevada's also has one of the highest rates of prisoners per 100,000. Finally, 40% of Nevada's Black male population, is tied up in the penal system.

South Africa has a way to go before it can master the oppressive penal system established in, THESE United States. For every 100,000 Blacks in South Africa, 729 are incarcerated. While in America...3,109 blacks are incarcerated per every 100,000 blacks in South Africa, 729 are incarcerated per every 100,000! Incredible isn't it?

If you listen to the media, Bush, and the average conservative; you find that they support these jailing rates. They propose MORE police and jails in the future! I know their motive. Conservatives complain that these criminals defy authority, destroy property, commit thievery, and support revolution. While these accusations might hold some truth, I would simply ask...what about Robin Hood?

This is where American life for whites and Blacks has al-

ways been different, and will continue to be. In a situation where the media destroys the Black man, it glorifies the whites for the same actions. Robin Hood was oppressed. His people were taxed beyond their means, and they were being ruled by corruptible leaders, so

he ROBBED to get by!

In Boston, when white America was unfairly taxed, they chose to DESTROY the King's property. They throw thousands of dollars worth of tea into the harbor. It seems they were defying authority doesn't it.

The revolutionary war was

fought because white Americans, objected to being oppressed by the King. From the 1920's until today, America has glorified the white gangster. Many are seen as stars, associating with famous people. Rarely do they do time, and if they are

## WE ARE ONE

By Ray E. Willis

Countless theories abound about the true origin of man. It's a fact though, that the oldest human remains ever found were undug in a part of Africa called Mesopotamia. Those bones were of a Black man.

So if original man is Black, where did White people come from?

There are more than a few perspectives on this, but let me give you one particular scenario.

Hundreds of thousands of years ago, the first Black man and the first Black woman reproduced and prospered in Africa, the birthplace of human kind. At some point, through genetic mutation, a few albinos were born. Because they were so different with their pale skin and light eyes, the albinos were ostracized—banished forever. They migrated northward on their own out of Africa, settling eventually in the cold climes of Europe.

Over time they adapted to their thawing Ice Age environment, growing facial and body hair to protect them from the elements.

Over an extended period of time they migrated southward, the home of their ancestors. But this time they came as fierce warriors, ready to do combat and

overtake their foe.

Because of their aggressive tendencies, they wore down their African enemies. As they say, the spoils go to the victors. That means pillaging and raping. Nine months after having their way with African women, a lighter strain of people in between White and Black was produced.

This racial admixture was to become further splintered into more and more racially identifiable different non-White races.

The most significant point in this view of the origin of man is that everyone on Planet Earth originated from the same Mother and Father. So no matter what color we are now, we're all truly one and the same. So why don't we start acknowledging that and drop this ridiculous charade about race?

To know is to grow. Until next week.

## It's so easy a child could do it.

There are over 11,000 miles of underground utilities in Southern Nevada. It's dangerous and costly to dig into them. One call will make sure you don't. Because with one call the companies listed below will come out and mark your site with color coded lines that let you see where the lines are buried. It's simple. It's free. In fact, it's child's play.
