LETTERS TO THE EDITOR

telling them to get up and WAAK-UP, yet the fools wouldn't listen. The Negroes died because times got hard and their friends across the tracks got harder and destroyed them. They saw the Satan that the good reverends keep talking about.

Destroying their children's minds with their mental doctrines, infesting their community with drugs, guns, ignorance and disease; they were destroyed because they were divided by the B.S. doctrines of their integrated friends.

The time-bomb is ticking folks. Is this what we are to leave our next generation to ponder on? I really hate writing, but I would be arrested for whipping you, (which you deserve). All I ask is for us, as people, to do something, not too much because it might scare you.

My child they did nothing, absolutely nothing. "I'm glad my parents listened to WAAK-UP & KAMAU" said the young person, "I can't believe they were so stupid and weak to let other people run all over them and to exploit them out of existence; negroes sure seemed like weak people, I guess you could say that they were human puffins."

Yes the poor Negroes had a chance; they had the Beacons of Light shining all over the place

Loving you always,

To Whom It May Concern:

The letter to the Editor printed in the Jan. 21, 1993 Sentinel-Voice, submitted by Howard L. French, affirms the ignorance of Euro-Christian culture, the retardation of humane thought processes and the brutality of racism. The issue is not our history, but yours. From the time you crawled out of caves in Europe and began among your tribes to develop the tools of political, social, economic, spiritual and physical death.

After developing death as a cultural art form you turn it on the resources and people of the world. The fact that you take pride in Euro-Christian cultural tools to lie, steal, kill and enslave, not to mention the brutal-

ity and inhumaness of it, gives you a sense of accomplishment is the epoch of insanity. To think you are the bottom rung of the evolution of African people is a desecrated insult to everything, every being that represents life. In my opinion, you were born in European caves to a cultural mother named ignorance who nourished you with a milk call hatred, and your father is a valve system named Racism International.

Only your history records a group of people that collected over 100,000 of their children, march them 600 miles in the winter where 50,000 died and the survivors were sold into slavery. Only your history records a whole town of people turning out for an afternoon picnic where a man is hung and burned be- (See Letters to Editor, Pg 18)
