Part One: Selected  
Community Colleges'  
Enrollment by Students of  
African Descent

**KEITH O. HILTON**

Whereas January/February is traditionally the time when most high school seniors finally submit their college applications to colleges that they are interested in attending, spring is usually when they sign on the dotted line.

For the most part, their minds have been made up and probably no other colleges will enter into the competition, therefore, this information is primarily for high school counselors, juniors and their parents. Part One of this three part column will highlight selected two year colleges.

The following information is based on figures compiled by the U.S. Department of Education for the year 1991. It is safe to believe that the 1992-93 figures are probably not too dissimilar.

Keep in mind that there are over 3,000 institutions of higher education, therefore, these schools only represent a very small percentage. Each of these colleges have African American student enrollments of 20%-70%.

One reason that we are listing these schools is because we want high school students and parents to consider as many options as possible. Studying at one of these colleges could be an excellent introduction to higher learning and education.

Bishop College (AL) - 2,144 total student (58.7% African American), Chattahoochee Valley State Community College (AL) - 1,727 (30.0), Shelton State Community College (AL) - 4,844 (21.0), Phillips County Community College (AR) - 1,563 (47.9), Greater Hartford Community College (CT) (33.3).

HILTON: HIGHER EDUCATION is designed to dialogue with college and world readers. Education is ongoing and certainly not limited to classroom study. Let's talk (909) 899-0650.

## ANNUAL ROTATION ESTABLISHED FOR PRIME 6 SIXTH GRADERS

Results of a random procedure to determine the alternating pattern for schools to send sixth grade students to Prime 6 Schools beginning this fall have been announced by the Clark County School District.

The random process assigns students attending elementary schools currently participating in the sixth grade center plan into one of two groups. Under the procedure, elementary schools will be rotated each year so that one year the sixth grade students will attend a Prime 6 school and the next year they will go to a middle or junior high school closer to home.

The two groups of students are almost evenly divided. A total of 2,933 students will attend Prime 6 schools from feeder elementaries this fall; 2,835 students comprise the alternating group of sixth graders who will be housed in middle and junior high schools. The following school year, the two groups will switch. Those elementaries assigned to Prime 6 schools this fall will be assigned to a middle school the following fall, and vice versa.

### NOTES FROM THE SCHOOL OF AFRICAN PHILOSOPHY

Why are Afrikans so concerned with offending or upsetting Europeans? Why is it that we feel the need to bite our tongues when ever we speak the truth? Was he concerned about "offending" you when he enslaved you? Was he concerned with "upsetting" you and yours when he lynched you? These are things we seldom consider until we decide to agitate then we check ourselves.

How many times have you stopped yourself from telling white folks how you really feel? And how many times have you, after speaking your mind, been hit with a wave of quiet? Afrikans, you have absolutely nothing to be guilty of. You have rights endowed by the creator to express your disgust at this system known as white supremacy. It is your responsibility as a victim to speak out and rise up against your victimizer.

We are the only people on this planet who are asked to forget our holocaust. We are the only ones made to feel guilty for remembering the atrocities perpetrated against us. In the natural order of things you are a lost people if you forget your past. As Malcolm once put it "History is people's memory, and without a memory, man is demoted to the lower animals."

It is no crime to speak the truth no matter who it offends. I implore you Afrikans to continue offending Europeans. Our reality can not and must not be denied. If we remain silent and always check ourselves it will be taken for granted that we are content with our ascribed status in life. We must speak out and rise up "by any means necessary." Until next week this has been the Minister of Information.
