handcuff this 10 year old kid.

Now for those of you who do not know Stanley, he is quite the gentlemen. He opens doors for women (I'll have to talk to him, about that in terms of sexist behavior) but he is allowed, because he is 10 years old. He feels that it is his responsibility to carry his younger brother around as opposed to his sisters carrying him. In fact, the worst offense during the entire 4 hour period, that I spent with Stanley was that Stanley is basically a wimp. His sisters beat up on him and he doesn't do anything. I put him in the car to take him and his mother and two sisters home, and he fell asleep in less than 5 minutes. I had to pick the kid up out of the car and take him to the door and sit him up, before he woke up.

What do we have here? We have a question of sanity. We have a question of is this planet Earth or are we talking about Mars? "Earth calling Mars." Where is the reality here? We are talking about a 10 year old child arrested for making a threat against another child. Shall we arrest all kids who make threats. Then let us arrest everybody, because literally the jails would be bulging with 10 years olds, 8

year olds, and 5 year olds who say things like "I am going to kill you, because I hate you..."

Children are taught that certain behavior is inappropriate. They are taught that by parents, teachers, etc., but they are not taught by brainless, idiotic, racist, gun happy killers in uniform, who wear badges. That is inappropriate. As it is equally inappropriate that the media in this area should portray a 10 year

Indeed, we must make it clear to the plantation master that on May 5, 1993, (Coincidentally, Stanley and I both go before "Massah" judge on the same day. things, but more importantly they created a sense of community and pride-some of the very things that are missing from our community today. All the grants in the world cannot make a X-man a hero in the eyes of his children.

On April 15th the Black Panther Party will introduce it self to the West Las Vegas community at the West Las Vegas Library. It will be my pleasure and honor to give the introductory address because whenever a movement or gathering is done in the name of the people it can be labeled as propaganda if the people are not a

part of it.

The entire history of the Black Panthers suggests that they are grassroots and based in the people. Not perfect....Just Real!

If these are the people that you are glad to be around then I know that I will see you this Monday at the West Las Vegas Library at 6:30 p.m. and the best part of all is you don't have to qualify. It doesn't matter if you're young, old, fat, skinny. It doesn't matter. Remember, we have never been attacked because of our income, or weight, or religion. We have come under fire for one simple reason.
