**Part Two: Selected  
Community Colleges'  
Enrollment by Students of  
African Descent**

**KEITH O. HILTON**

Whereas January/February is traditionally the time when most high school seniors finally submit their college applications to colleges that they are interested in attending, spring is usually when they sign on the dotted line. This process also applies to international students.

For the most part, students' minds have been made up and probably no other colleges will enter into the competition, therefore, this information is primarily for high school counselors, juniors and international students. Part One highlighted selected two year colleges. Part two focused on four year colleges. Part three is presented as a sample overview for international students of all ethnicities.

The following information is based on figures compiled by the U.S. Department of Education for the year 1991. It is safe to believe that the 1992-93 figures are probably not too dissimilar.

Keep in mind that there are over 3,000 institutions for higher education, therefore, these schools only represent a very small percentage. Each of these colleges have international student enrollments of at least 12%.

New York Institute of Technology, Manhattan - 2,356 total students - 43.4% international students. American School of International Management (AZ) - 1,565 (27.5%), Western International University (AZ) - 1,258 (25.4%).

Art Center College of Design (CA) - 1,269 (14.2%), Union County College (NJ) - 10,224 (20.1%), Fashion Institute of Design and Merchandising (CA) - 1,809 (18.5%),

Marymount College (CA) - 1,067 (24.6%), Julliard School (NY) -

**Hilton: Higher Education** is designed to dialogue with college and world readers. Education is ongoing and certainly not limited to classroom study. Let's talk. (909) 899-0650.

## NOTES FROM THE SCHOOL OF AFRICAN PHILOSOPHY

A few weeks back in this very column I wrote you asking that you write me and give me your views on what's the "struggle" means to you. That was in the March 18th 1993 issue of this paper. As of today's issue I have yet to receive one response.

What is the problem Africans? Did you not understand the question? Do you not know what the struggle means to you? Do you not believe a struggle exists or do you simply not give a damn?

This newspaper is your medium for expressing yourselves. You complain constantly that you don't have a "voice" or that the voice you do have is seldom, if even, heard: Here you have an opportunity to convey your views and you don't take advantage of it.

Make no mistakes about it, there is a struggle and Africans are being attacked. But in order for you to avoid being ambushed you must understand the nature of the attack. I have no doubt that there are intelligent and articulate Africans who read this weekly publication and have, if nothing else, an opinion on the struggle, it's significance and it's projected outcome('s). Talk to me Africans.

In the six months since this column has been in print I've presented you with what I refer to as "food for thought." After having you on this "diet" for some six months I believe it fair for me to anticipate some results. I don't ask for much but I am entitled to expect you to use your minds to formulate thoughts and ideas on this all too important subject. So again I ask you what does the struggle mean to you?

Write to the Minister of Information c/o The Sentinel Voice 1201 S. Eastern Ave L.V., NV 89104 and share your thoughts. If I and my fellow comrades are to continue fighting (struggling) not only must we be informed but we need your support. The war continues.

Until next week this has been the Minister of Information.
