

# AFAN

(Continued From Page 7)

stand how we can help to turn around this deadly disease," he said. In speaking at length with Durett, he conveyed how he had several associates fatally stricken by the HIV virus. Durett said that the "AIDS and Health awareness Day" is an annual event and each year he expects it to draw larger crowds.

Glennie Pope, Director of

AFAN West Community Service Center was elated at the turnout. She said that the community was encouraging.

"Our hope then was that the African American community show their support by stopping at the different booths and taking the free literature, talking to the representatives and enjoying the food and refreshments.

"We had numerous agencies here and representatives have

come from the governor's office, city officials, legislators, educators, parents and other young people," she said.

On the inside of our facility we have health officials on hand to conduct AIDS testing, Syphilis testing, and answer questions that people may have."

It was indeed a productive day as KCEP, 88.1 FM Community Affairs Director, Carlton Booth, conducted a "live remote" broadcast with capable assis-

tants to encourage the community to drop by.

Other agencies participating in the activities were Clark County Health district, Clark County Public Information Office, Nevada Association of Latin Americans (NALA), African American AIDS Community Coalition, Community Counseling Center, African American Advisory Counsel, Public Guardians Office, American Red Cross, Community Involvement Center for WESCARE and Nevada Treatment Center

Community Outreach Program.

"If nothing else is done we would hope that through this facility, to educate the community, if they have HIV, to get them into the Case Management System to get help from Social services and maintain the dignity that they need and deserve, then we've accomplished our goal," said Durett.

## UNITY MARCH

To be held on Saturday, April 17, 1993 starting at 10:00a.m. at the corner of Washington and Main Street. It is requested that

"Community Peace" and members of "All of Us Together" participate in the Unity March along with other members of the community. The route will be from Washington and Main to Fremont to Las Vegas Blvd ending at City Hall with a rally.

The fact that this is not California, we need to go on with the business at hand, and not concern ourselves with events in other cities. We are moving ahead in Las Vegas. Let's not move backwards. When There's Unity There's Strength.

## TRIAL

(Continued From Page 1)

City Hall with a rally.

Mayor Jan Jones has said she supports waiting a week or two for the march in order to increase the chance for more community participation.

However, City Councilman Frank Hawkins stated he was in favor of it. "If they had a march, I don't think there would be any problems," he said.

The peace organization "All Of Us Together" has also shown resistance to the Saturday march.

Many feel a large gathering of this nature could turn violent, similar to the events that took place last year after the first Rodney King verdict.

## LETTER

(Continued From Page 2)

If we really looked at the situation realistically, we would discover that we actually pay more taxes than anyone else considering the fact that we can look around and point out all the places that our tax dollar is not working for us.

We have no urban development. We have no schools being built. We can't even get street lights replaced. It seems like 80% of us is paying for absolutely nothing. But that is an untrue statement. Our tax dollar puts sidewalks, schools and shopping malls in places like Green Valley, Summerlin and the Lakes.

Now you tell me who should be bitching about where our tax dollar goes. We truly have taxation without representation. This is the stuff that revolutions are made of. It's time to wake up our City Councilman, our county commissioner and our school board representative. It's time to silence those chattering white idiots who want us to feel guilty about burning things that never belong to us in the first place. I don't believe that they feel the least bit guilty about using our money to put sidewalks in Summerlin or park benches in Green Valley.

Just a friendly footnote; 68% of all Welfare recipients are white. Put that in your tax pipe and smoke it.

## Excellent Financing Available
